1. Group activity assessment

a) Group activity description

CEC Bank Group consist of CEC Bank S.A. as parent company and its subsidiary Fondul de Garantare a Creditului Rural. The consolidated and separate financial statements for the financial year ending on December 31, 2024 comprise the Bank and its subsidiary.

CEC Bank S.A. is a joint-stock company 100% owned by the Romanian state, which exercises its rights and assumes all the obligations related to the sole shareholder position through the Ministry of Finance.

CEC Bank SA ("The Bank"), registered with the Trade Register under the no. J/40/155/1997 and functioning according to the provisions of the Government Emergency Ordinance no. 99/2006 on credit institutions and capital adequacy, approved with amendments and modifications by Law no. 227/2007, of the provisions of Law 31/1990 on trading companies and according to its Articles of Association, approved by Order no. 3397/2019 of the Minister of Public Finance, as subsequently amended and supplemented, as well as according to the Organizational and Operational Rules.

According to Article 6 of the Articles of Incorporation, the Bank's main activity is "other monetary intermediation activities" - NACE code 6419.

Fondul de Garantare a Creditului Rural – IFN – has as its main activity the undertaking of guarantee commitments and issuing guarantees, including by leveraging the public funds provided mainly by the Ministry of Agriculture and Rural Development.

On July 27, 2023, CEC Bank acquired 99.993% of FGCR's shares and MADR (Ministry of Agriculture and Rural Development) owns 0.007% of the shares.

b) Date of establishment

CEC Bank S.A. was established in 1864. Bank is registered with the Trade Register under the no. J40/155/13.01.1997, having tax identification no. RO 361897.

The Rural Credit Guarantee Fund ("the Fund"), the first guarantee fund in Romania dedicated to agriculture, was established in February 1994, according to Law no. 31/1990, as a joint stock company, following negotiations between the European Community Commission and the Government of Romania, represented by the Ministry of Agriculture and Rural Development, materializing the European Community program to support the privatization process of

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

agriculture in Romania and registered as NBFi in 2006, based on Government Ordinance no. 28/2006, amended by Law no. 93/2009..

Starting on July 30, 2007, FGCR it received from the National Bank of Romania notification of registration in the NBR Special Register under no. RS-PJR-090029/2007 and in the NBR General Register under no. RG-PJR-41-090173/2007.

c) Significant mergers or reorganizations of the Issuer, its subsidiaries or controlled companies, during the fiscal year

1.1 General assessment elements

CEC Bank ended 2024 with an increase of approximately 19% in its assets compared to 2023. The financial statements were prepared in accordance with the International Financial Reporting Standards ("IFRS"), as adopted by the European Union, also taken over by Order no. 27/2010 issued by the National Bank of Romania and adopted by the European Union, and is presented as follows:

	Group	Bank
Total assets	99,326,431 (RON thousand)	92,246,743 (RON thousand)
Gross profit	822,559 (RON thousand)	799,115 (RON thousand)
Net profit	687,949 (RON thousand)	668,235 (RON thousand)
Solvency indicator	24.53%	24.57%
Annualized return on assets (ROA)	0.75%	0.73%
Annualized return on equity (ROE)	13.35%	13.06%
Market share (in terms of assets)	11.3%	11.3%
Indicator regarding the coverage of the Liquidity requirement (LCR)	231.51%	231.43%

1.2 Assessment of the Bank's technical level

In 2024, digital transformation continued to be a strategic direction and a priority for the Bank.

For Internet Banking

In 2024, the transactions number carried out through Internet Banking increased up to 5,311,771 operations, registering an increase of 26.77% compared to 2023. The operations value carried out through Internet Banking during 2024 exceeded the value of approx. 163.86 billion RON. The total number of Internet Banking customers increased by 46.23% and reached a pick of 210.685 customers in 2024.

On the Internet Banking application for Individuals, in 2024 there were added new facilities with a major impact on customers, such as:

- Displaying a pop-up message immediately after login, through which the client receives various information, including marketing information;
- Hungary vignette and Fetești bridge fees payments;

- Aggregate Financial Situation display for the client, including the possibility of listing (data export in different formats, such as PDF, CSV, XLS);
- Liquidation/ closing foreign currency accounts and sub-accounts;
- Hide/ show accounts in the "Account picker" section;
- The possibility to cancel a transaction within a future date, by the customer himself;
- Extension of the transactions list, from 1 year, up to 2 years;
- Loan closing Confirmation Letter display and listing;
- Account Letter generator.

For Mobile Banking:

In 2024, the number of transactions carried out through Mobile Banking increased to 11,849,983 operations, registering a 46% growth compared to 2023. The value of operations carried out through Mobile Banking during 2024 increased by 45%, reaching approximately RON 53 billion. The total number of Mobile Banking customers recorded a 34% increase, reaching 706,355 customers in 2024.

Several impactful functionalities were added to the Mobile Banking platform in 2024, including:

- The RoPay instant payment service with a mobile phone via QR code;
- Scanning of Debit Instruments within the application;
- Integration of an additional security solution (App Protector);
- Application redesign, including Dark mode;
- Direct Debit;
- Implementation of an additional security measure by sending notifications (SMS, email) for each application reactivation;
- Biometric authorization of transactions;
- Purchase of road Vignettes for Hungary and payment of the Fetesti - Cernavoda bridge toll (PEAJ);
- Account statement generation.

For Phone Banking:

The number of active customers in Phone Banking in 2024 reached the threshold of 19,449 customers at the end of the year.

In parallel with the provision of voice-based transactional activity, Phone Banking services were extended to the area of sale of loans with card access, loans for personal needs and refinancing of consumer loans. Thus, in the year 2024, through Phone Banking they were sold:

- 909 credit/overdraft cards worth approx. 27 375 186 RON;
- 777 loans for personal needs and consumer credit refinancing, in the amount of RON 27 898 641;

For eShop CEC_IN - the Bank's Virtual Store

The development and improvement process of the CEC_IN Marketplace continued in 2024 with the launch through the Online Onboarding and Product Origination platforms of new current account packages and which are available to both customers on the bank's website, in the eShop CEC_IN, as well as the teams in direct contact with customers at the level of territorial units, as follows:

- StudentFree Package Flow – the new Onboarding flow dedicated to young people up to 24 years old, is available starting August 2024 to the teams in direct contact with customers at the level of territorial units - FSU (Flow Short Units);
- Grijă Completă – the Onboarding Flow dedicated to new customers is available starting May 2024 to the teams in direct contacts with the customers at the level of teritorial units –FSU (Flow Short Units);
- Assisted digital flow - MVP1, carried out at the client's headquarters, in order to quickly open current account packages for customers who have agreements with the Bank, allows the enrollment of clients at the headquarters on a 100% online digital flow, with validation by a checker from the level of teritorial units. It is a new stream launched in May 2024 which was well received by units and customers;
- Pension Package Flow - the new Onboarding flow is available in CEC_In starting December 2024.
- Cloud migration of the early repayment flow, online lending flows, the refinancing flow from CEC_In, was launched in production in June 2024;
- During 2024, more than 136,000 customers acquired current account packages and services through online flows and FSU (Flow Short Units);

Since the launch of online lending flows, 50,793 online lending products worth approximately 1,233,245,000 have been granted through CEC_IN eShop, MB/IB applications and through the short flows available at the unit level.

During 2024, there is a significant increase of approximately 2.8 times in the number of lending products granted through digital platforms, compared to the previous year.

For Legal entities, two types of current account packages are available on the Bank's website that can be accessed fully online: IMM Optim and Start-Up Locals.

Since the launch of online flow, a number of 227 current account packages addressed to legal entities were opened, as follows:

- 154 Optim SME Packages
- 73 start-up packages Locals

CEC BANK S.A. Territorial Network

At the end of 2024, the Bank operated through its headquarters located in Bucharest, as well as through its 48 county branches and similar units in Bucharest, 116 urban agencies of type A, 386 urban agencies of type B, and 460 rural agencies of type B. The total number of units as of December 31, 2024, was 1,011 units, compared to 1,013 on December 31, 2023.

Thus, the Bank maintained its position in the system as the bank with the most extensive network of territorial units (of which 460 units are located in rural areas).

In 2024, the plan for modernizing territorial units continued, through the implementation of new concepts, both in existing units and in new locations. Thus, 10 projects were completed:

- 7 relocations: Sibiu Branch, Podu Ros Agency (Campus Palas Iași) – Iași Branch, Nr. 1 Progresul Agency – Brăila Branch, Odorheiu Secuiesc Agency – Miercurea Ciuc Branch, Calea Baciului Agency – Cluj Branch, Bucurestii Noi Agency – Gara de Nord Branch, Colentina Agency – Piata Alba Iulia Branch;
- 3 renovations in existing locations: Ștefan cel Mare Agency – Lipsani Branch, Pantelimon Agency – Piata Alba Iulia Branch, Theodor Pallady Agency – Al. Obregia Branch;
- 1 Mortgage Shop concept within the Theodor Pallady Agency.

In the newly arranged units, Self Banking zones were integrated – 24/7, with a significant impact on improving customer satisfaction by reducing wait times at counters, providing 24/7 availability, reducing costs, and ensuring accessibility and security through dedicated, convenient spaces.

For the 24 Banking zones created as part of the modernization concepts, the process of equipping with new-generation multifunctional devices with new business functionalities continued, ensuring Omnichannel experiences for customers.

By the end of 2024, the following were operational:

- 4 Mortgage Shop units: 2 in Bucharest, 1 in Cluj (in Dej), and 1 in Timișoara.
- The Mortgage Shop concept is aimed at individual customers seeking financing solutions for purchasing, modernizing, and building homes. The implementation of the "Mortgage Shop" concept is part of the omnichannel approach, through which we aim to establish high service standards for our customers.
- 5 Cashless units within the Iași Branch, both in urban and rural environments. The Cashless concept involves a hybrid approach and aims to ensure territorial availability, offering complex solutions, and educating/encouraging customers to use digital products and services.

1.3 Assessment of the technical and material supply activity

The technical and material supply activity is not significant for the Bank.

1.4 Assessment of sales activity

CEC Bank is constantly analyzing opportunities to expand its product portfolio, in order to offer to the customers a diverse range of quality products.

The Bank's products have been improved so that they can meet the expectations of customers, enhancing the quality of services offered in terms of usability, waiting times, and comfort levels. This year too, the Bank emphasized - according to the assumed mission - on the development of competitive products and services intended mainly for SME customers and the agricultural sector. Thus, during 2024 several new products addressed to Legal Entities customers were launched, being undertaken in parallel a series of actions to attract new customers and increase the loyalty of existing ones, namely:

Actions undertaken in the lending segment

Loans for legal persons:

Actions undertaken in the savings segment

In 2024, a series of measures were taken to increase the loyalty of current customers and attract new customers, as well as to support the population's savings process, as follows :

Retail Products

■ **Individual customers product/service optimizations:**

- Adjustment of interest rates on deposits and savings accounts for individuals;
- Modifying interest rates for all term deposits in RON, including interest rates related to savings accounts in line with the banking market trend, through 3 stages during the year;
- Modifying the current calculation mechanism by including cash deposit operations at the counter/MFM in determining the loan turnover, applicable to all current account packages intended for individual customers (except the Figo Pay package).
- Modifying the Figo Pay package component by:
 - ✓ including a number of 3 free interbank payments in RON, made via Internet/Mobile Banking in the component of the Internet Banking service and, while maintaining the cost per package;
 - ✓ modifying the debit turnover condition into a minimum monthly credit turnover on the current/debit card account, in RON, representing recurring income collection greater than or equal to RON 700 .
- Changing the value of the credit turnover related to the Smart, Grija Completa and Bun Venit packages, from the value of the minimum net salary in the economy to the value of RON 2,000
- Completing the Individual customers package components by:
 - ✓ including the Phone Banking service in the Smart, Grija Completa, Pensionar, Bun Venit and FigoPay packages while maintaining the cost per package, and performing the authentication and authorization method for operations only by granting and activating the Token application;
 - ✓ including the Internet Banking service in the Bun Venit package, while maintaining the cost per package.
- Online and FSU (in territorial units) sales of the Pensionar package.
- Insuring operability of the "Student Free" package on the short flow of opening Current Account Packages initiated in the territorial units (FSU) through the FintechOS platform, or on the assisted flow of opening packages outside units

- Changing the mechanism implemented in the Qbank application regarding the payments processed via instant channel, ordered through Mobile Banking , by limiting them in terms of amount (maximum RON 15,000, 5,000 RON/per transaction) and number of payments (maximum 3), with the following same day payments being processed/settled via standard channels (NBR/OP)

- Changing the interest rate level applied to the Individual customers current account, the fees related to the current account and the conditions for exemption of the monthly administration fee for the Individual customers current account packages, by introducing a new condition - "carrying out a transaction at merchants by using the card, regardless of the value", which will be cumulative with one of the existing conditions, depending on the package held; all changes are applicable from 12.02.2025

- Starting the project regarding the development and implementation of a new module in the Mobile Banking application - CEC app and a new package of products and services intended for youngsters between the ages of 10 and 18.

■ **New product/service launches/campaigns for individual customers/Offers:**

- ✓ Organizing the Anniversary Campaign – "CEC Bank, 160 years since its establishment", by exempting the monthly administration fee for the Complete Care Package, for 6 months from the date of its purchase, applied to customers who purchase the package between November 25 - 27, 2025.

- ✓ Extension of the " Student Free - Câștigă cu roata Play&Win " campaign for a period of another 12 months (27.09.2024 – 27.09.2025) and modification of the Campaign mechanism in terms of the conditions for earning points

- ✓ Campaign extension for the " Grijă Completă " package, for 2 periods of 6 months each (14.03.2024 – 13.09.2024 and 27.09.2024 – 26.03.2025)) with:

- maintaining the standard conditions regarding the application of the additional interest margin of 0.50% granted to deposits with subsequent deposits in RON established by clients who hold/purchase the " Grijă Completă " package

- modifying the current margin granting mechanism implemented in the QBank application for deposits that have reached maturity and are automatically renewed by applying the current margin of 0.5%

- Continuing the process of concluding salary agreements – Offering employees of companies/other structures with product and service packages (Smart/Premium/ Grijă Completă) under advantageous cost/transaction conditions.

Products for legal persons:

■ New products/services launches for legal entities

- Collateral deposit for guaranteeing PJ credit facilities in RON/EUR/USD/GBP, launched in March 2024.

Functionalities implemented:

- extending/reducing the validity by maintaining the IBAN provided to the client when opening the deposit
- the interest rate can be negotiated on different days, including after changing the maturity date

- the amount can be increased/decreased by transfer from/to the attached current account

- Collateral deposit guaranteeing commission CRC_PJ in RON. The Bank provides monthly fee payment services from the CEC Bank account opened at the National Bank of Romania (NBR) for the information services provided by the Central Credit Register (CCR). The client from NBF (Non-Banking Financial Institution) category will consult the CCR directly, outside the Bank. For the services provided by the CCR, NBR will withhold the monthly commission from CEC Bank's account, the amount being later recovered from the customer's current account opened at CEC Bank.

-The automatic Overnight product in CAD was defined in order to increase liquidity in soft currencies (CAD)

■ Optimization of products and services for legal entities

- Modification of the Start UP Localnicii Package:

- changing the name of the Localnicii Start-Up package into Start-UP Package

• the introduction of the co-branded Visa Start-UP card with a new design and multiple non-banking benefits granted by the Visa organization

- Optimizing the distribution account product by adding the possibility to make external payments in RON

- Implementation of instant incoming payments on collector accounts/subaccounts

■ Rerouting instant payments - the implicit/default instant settlement of interbank payments in RON, amounts < RON 50,000 made through Mobile Banking;

- Anniversary campaign to mark the Anniversary of CEC Bank - 160 years since its foundation

- New customers who purchased the Optim SME Package between November 25 and 27, 2024 (over the counter/online) will have administration fee RON 0, for a period of 3 months from the date of purchase of the package.

- Adjustments of interest term deposits in RON according to market conditions in two stages, in February and October 2024

- Simplification of legal entity enrollment/updating documentation for clients with frequent changes of the signature specimen file.

The customer has the opportunity to:

- designation of authorized persons on certain accounts, in which case the authorized persons may operate strictly on the indicated accounts;

- designation of persons on all accounts which will have the right to operate on all accounts without the need to fill in all IBANs on the form;

- additional signature samples

- cancellation of signature specimens

- Decommissioning products from the category of current accounts: Current account regarding sponsorships granted by C.E.C. Bank to legal entity clients; Special accounts opened on the basis of convention; Special accounts opened on the basis of protocol.

1.5. Assessment of issues related to the Issuer's employees/staff

In 2024, the average number of the employees of the Bank was 4,872, and as of 31.12.2024 the Bank had an effective number of 4,939 employees (including inactive employees), working in 48 county branches and similar units in Bucharest Municipality, 116 type A urban agencies, 386 type B urban agencies and 460 type B rural agencies. As of 31.12.2024, the staff turnover rate was 11.66%, which is within the monitoring limit of 31%.

The average employee age increased by only 0.15 years from the previous year, and it maintains at 48 years old compared to 2023, considering the potential of 1 year increase due to biological aging of existing staff. The average age is maintained due to the recruitment of young staff with development potential, considering Bank's requirements, so that the average age of newly recruited staff was 38.22 years, compared to the average age of departing staff (terminations of individual employment agreements following retirements, agreement of parties, resignations, etc.) of 48.34 years in 2024.

Year	Average age of the staff as of	Average age of the staff	
	31 December	joining	leaving
2022	47.82	38.35	45.84
2023	48.22	39.36	46.83
2024	48.37	38.22	48.34

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

For the selection of new staff joining the Bank, emphasis was placed on the level of professional knowledge, subject matter expertise, specific skills and abilities required, compatibility with the Bank's values, as well as the professional growth and development potential of the individuals assessed, which will ensure the future growth and diversification of the Bank's business.

The distribution of staff by age group as of 31.12.2024 is presented as follows:

Age group	Number of staff			
	Headquarters	Network	Total	
0	1	2	3=1+2	4
<21 years	1	1	2	0.04%

The Bank recognizes the importance of diversity in filling positions in the company and encourages women to take up management positions. Out of the total of 667 people with management positions, as of 31.12.2024, approx. 65.52% are women.

Out of the total of 4,939 employees as of 31.12.2024, a percentage of 82.22% is represented by female employees and a percentage of 17.78% is represented by male employees, as follows:

		Number of staff as of December 31, 2024	
Women, out of which	1=a+b	4,061	82.22%
occupy management positions	a	437	10.76%
occupy execution positions	b	3,624	89.24%
Men, out of which:	2=c+d	878	17.78%
occupy management positions	c	230	26.20%
occupy execution positions	d	648	73.80%
TOTAL	3=1+2	4,939	100.00%

Out of the total of 4,939 employees existing as of 31.12.2024:

- 87.12% (4,303 employees) had been carrying out their activity in the urban area;

- 12.88% (636 employees) had been carrying out their activity in the rural area, according to the situation presented below:

Urban/rural environment	Number of staff			
	Headquarters	Network	Total	
0	1	2	3=1+2	4
Urban	1,341	2,962	4,303	87.12%
Rural	-	636	636	12.88%
Total	1,341	3,598	4,939	100.00%

In 2024, the Bank provided a favorable learning environment to support the development of employees' skills so that the company's staff have the tools to develop both professionally and personally. A series of continuous professional development programs have been implemented, offering employees both internal and external learning program to support the digitization and modernization process the Bank is undergoing. The priority of the key programs developed in 2024 was the development of skills: digital, managerial, self-leadership and personal effectiveness, sales, negotiation and customer experience.

In 2024, 309 professional training actions were held (courses, webinars and workshops on various topics both in face to face and online, on-the-job training, tests), attended during the year a number of 5,323 employees. Out of the total of 5,323 participating employees, 527 have ended their relations with the Bank, and 61 were in in long term medical leave or parental leave. Related to 4,790, the number of active employees at the end of the 2024, staff at headquarters and branches respectively, who participated in at least one interactive, online or workplace event was as follows:

- 95 % (1.258) out of the total number of 1.326 employees at the Headquarters
- 100.03 % (3.477) out of the total number of 3.464 employees at the Branches

Note: During the year, a number of employees transferred from headquarters to branches.

The main professional training actions carried out during 2024 consisted of:

- 2,024 sessions organized within 309 courses/ seminars/ workshops/ conferences/ webinars.
 - The number of employees participating in these actions is 5,323, grouped as follows:

Positions	Participating employees
	No.
Management	646
Executives	4.677
Total	5.323

the areas mainly addressed within the organized actions in which the Bank's employees took part were: financial analysis, banking products and services for personal and corporate clients, anti-fraud, compliance, KYC/AML/CFT, risk, sale, negotiation and conclusion of contracts, increasing team performance, insurance, time management, leadership, first time manager, teamwork, adaptation to change, communication, evaluation standards, digitization programs, IT&C courses, increasing personal efficiency, internal audit, consultative selling skills, customer experience, conflicts and mediation

Within the activities carried out, through its representatives, in 2024 the Bank also ensured compliance with the requirements of the International Labor Organization, respectively the labor standards covering the principles and fundamental rights in the workplace: freedom of association and effective recognition of the right of collective bargaining; elimination of all forms of forced or compulsory labor; the effective abolition of child labor; and the elimination of discrimination in employment and occupation.

Throughout the voluntary information, consultation and negotiation process regarding the conditions of labor, employment, ensuring work health and safety, the Bank employees were represented at a national level by the Federation of Free Trade Unions of the CEC Bank employees in Romania (F.S.L.S.).

According to the legal stipulations applicable to occupational health and safety, the Bank has taken all the necessary measures to protect the health and safety of its employees, including for the prevention of occupational risks, information and training, as well as for the implementation of the organization of occupational safety and health and of the necessary means applicable to the same.

Throughout the preparation of occupational health and safety measures, the Bank consulted with the representative trade union - F.S.L.S., as well as with the occupational health and safety committee, established under the law.

From the perspective of the remuneration policy, the Bank establishes a clear and fair framework for the remuneration of employees, with the main objective of discouraging

excessive risk-taking and promoting an organizational culture based on responsibility, transparency and compliance with the regulations in force. It regulates key issues such as job security, competitive wages, gender equality and equal pay for work of equal value, as well as training and skills development.

An important aspect of the policy is that in the determination of remuneration, risk preventing principles are applied to avoid granting incentives for excessive risk-taking and other components contrary to the interests of the Bank, thus avoiding conflicts of interest and ensuring honest and transparent actions by employees. CEC Bank also avoids aggressive incentive schemes, offering instead a balanced remuneration package, in order to maintain a well-trained, upright and motivated staff.

The Remuneration Policy has a broad scope, covering all employees of the Bank, including members of the Board of Directors, management, executive, sales and operational staff, without exclusions, which makes it relevant to all activities carried out by the bank.

Through the remuneration system applied, the Bank aims to recognize employees according to the performance results obtained, as well as to retain and motivate employees with potential, offering both fixed and variable remuneration elements, as well as non-monetary salary elements, through the investment in the professional development of employees.

The remuneration of the members of the management body is established by Order of the Minister of Finance and by management/mandate contracts, being composed of both fixed and variable remuneration granted with the approval of the General Meeting of Shareholders, being conditioned by the performance of the organization.

At the strategic level, from the perspective of human resources policies, the Bank plans to continue its efforts to correlate the remuneration policy with financial performance, focusing on the development of human capital, the consolidation of a performance-based organizational culture and change management.

1.6. Assessment of the aspects related to the impact of the Issuer's basic activity on the environment

In terms of environmental protection, the Bank is involved in several processes, including:

- ✓ Selective collection of waste, hazardous waste and their destruction by contracting a specialist company that manages their records and prepares the necessary documents for the competent authorities, in accordance with the provisions of Law no. 211/2011 and OuG 74/2018;
- ✓ The purchase of latest generation Euro 6 cars with low emissions;
- ✓ Purchase of heating, air conditioning, ventilation systems (chiller type or electric thermal plants) to eliminate CO2 emissions;
- ✓ Replacement of lighting systems with ecological led systems;
- ✓ The introduction into the computer system of the necessary applications both for the efficiency of specific activities in the Bank and for the considerable reduction of the amount of paper used:
 - electronic generation of road maps for the entire CEC bank car fleet and their confirmation by e-mail;
 - electronic approval of internal documents issued at the level of the Bank;
 - inventorying and electronic signing of movement vouchers for all tangible and intangible assets.
- ✓ Staff awareness in order to reduce the consumption of electricity/water/paper at the level of the institution and to comply with environmental protection rules.

1.7 Assessment of the research and development activity

The Bank is undergoing a continuous research and development process and strives to invest in digitization and technology, simultaneously with the improvement of efficiency and productivity, IT systems, internal control systems, risk management systems, the offer of products and services provided to customers.

1.8 Assessment of the Issuer's risk management activity

In order to conduct prudent banking, according to the Risk Management Policy and the risk profile of CEC BANK S.A., the Bank has sought to fit into an overall medium risk profile, given that it operates in an economic environment lacking medium and long-term predictability.

The assessment of the level of risk recorded for each of the significant risks was achieved on the basis of the overall risk profile monitoring matrix set out in the Risk Management Policy and the risk profile of the Bank resulting in the classification as at 31.12.2024 in a general moderate risk profile*.

*According to the matrix regulated within the risk and profile management Policy of the Bank for the period 2024-2026, the assessment of significant risks at individual level leads to the association of an overall low, moderate, medium or high level of risk.

At the same time, the Bank has continuously complied with the regulated limits in the capital adequacy and liquidity assessment process.

The Bank continues to maintain a level of total own funds ratio above the overall capital requirement, proving its ability and commitment to support the growth of financial intermediation for natural persons and legal persons customers, further strengthening its ability to generate income from core activities.

The total equity ratio recorded as of 31.12.2024 a level of 24.57% above the total capital requirements of the National Bank of Romania within the SREP (Supervisory, Review and Evaluation Process) and above the global capital requirement-OCR, which also includes capital buffers. The bank has complied as at 31.12.2024 with the interim capital and eligible liabilities requirement set by the Resolution Authority.

In order to counteract the negative effects of macroeconomic developments, the Bank continuously adjusts its risk and capital policies, and its shareholder supports it to ensure compliance with all regulatory requirements, to fit the overall risk profile and to ensure capital and liquidity adequacy to the risks it faces.

Risk management policies and systems are reviewed periodically to reflect changes in market and the modifications to products and services offered by the Bank.

The principles supporting the significant risk management basis are:

- compliance with the risk limits established under the risk policies for the significant risk categories assumed by the Bank.
- identification, assessment, follow-up and control of risks according to specific rules and policies.

- maintaining a reporting system appropriate to risk exposures, i.e. the thresholds at which a risk is considered significant.
- maintaining appropriate risk exposure limits in line with the size, complexity and financial situation of the Bank.
- appropriate segregation of duties within the significant risk management process to avoid potential conflicts of interest.
- continuous monitoring of compliance with the procedures established for significant risks and operational resolution of identified deficiencies.
- regular review of significant risk management strategies and policies (at least annually).

a) Exposure to credit risk

Taking into account that lending activity holds an important weight of the Bank's business, an effective credit risk management system generates positive effects for both the Bank and its customers.

The Bank is exposed to credit risk mainly as a result of the lending activity as well as other transactions from which the Bank recognizes financial assets.

Through the risk profile, the Bank sets exposure limits by counterparty type, economic sector, customer category, geographic area, product, currency, loan term, estimated portfolio profitability, in order to promote certain loan categories.

The Bank assesses the classification within the assumed credit risk profile according to the assumed credit risk appetite. The level of risk is quantified based on a scoring system of key credit risk indicators according to their recorded values.

In order to carry out a prudent activity, characterized by continuous monitoring and control of the level of risk related to the credit risk appetite, the Bank has aimed at an assumed medium credit risk profile, using an internal credit risk assessment system for the loan portfolio. As at 31.12.2024, the Bank has a moderate credit risk profile.

The risk appetite is the Bank's maximum capacity to assume balance sheet and off-balance sheet commitments over a period of time, determined related to:

- the level of current and forecasted own funds.

- the structure and level of existing and projected resources and investments.
- the level of estimated profit to achieve.

The credit risk appetite the Bank assumed is that one corresponding to an average risk profile.

The Bank has credit risk monitoring tools in place at portfolio level, continuously monitoring:

- assets quality ratios.
- risk capital adequacy ratios.
- credit risk concentration ratios.
- large exposures to a customer or to a "group of connected customers";
- information on significant issues and developments that could influence the credit risk profile.
- simulations and crisis scenarios impacting the portfolio.
- a continuous process of collateral and residual risk assessment with effects on risk coverage.
- identification and management of problem assets as an ongoing process within credit risk management, carried out according to specific internal regulations.

b) Exposure to market risk

Market risk is the current or future risk of incurring losses corresponding to balance sheet and off-balance sheet positions due to adverse market fluctuations in prices, such as equity prices, interest rates and foreign exchange rates.

The market risk management policy mainly addresses the major components of market risk, namely:

- price risk - the risk of recording significant losses from the sale of the government bonds portfolio (FVTOCI);
- foreign currency risk represented by the risk of recording significant losses due to changes in exchange rates.

The Bank evaluates the market risk through elements that define it, respectively: the share in total placements of government bonds, the volume of loans granted to non-bank customers, the volume of operations in foreign currencies, the important position that the Bank holds on

the market of attracting cash from the population, corroborated with the analysis of exogenous and endogenous factors.

To assess the market risk, starting with April 2022, the Bank holds activities specific to a small size trading book and positions held with the intention of trading represented by short-term resale positions and/or with the intention of benefiting from actual or expected short-term differences between buying and selling prices, or from other price or rate movements interest (Romanian government securities).

The market risk exposure follow-up aims to achieve a portfolio with low sensitivity to the variation in the prices of government securities, the variation in VaR corresponding to the currency portfolio and the exchange rate and the achievement of the objectives established by the risk profile. These are mainly achieved by monitoring the price of government securities on the market as an indicator for price risk, as well as by determining and monitoring the VaR indicator and the Bank's currency position, as indicators of currency risk.

The implementation of the policy and the achievement of the goals regarding the management of market risk is achieved through the permanent monitoring and follow-up of:

- The key indicators underlying the determination of the risk profile, respectively "The level of the hypothetical loss that would result from the immediate sale of the portfolio of government securities included in the category of financial assets valued at fair value through other elements of comprehensive income", for the price risk and the "Total net foreign exchange position" indicator, for foreign exchange risk;
- Level II indicators, monitored daily, namely government securities trading book item for the price risk and the ratios corresponding to the foreign currency risk represented by the individual net foreign exchange position and the indicator for measuring the risk related to the currency portfolio - the Value at Risk (VaR) methodology.

By monitoring price risk, the Bank aims to permanently maintain a low level of the hypothetical loss that it would record in the event of an immediate sale of the portfolio of government securities classified as "financial assets measured at fair value through other comprehensive income", and from the point of view of currency risk, the Bank aims to achieve an optimal portfolio correlated between the value of assets and liabilities expressed in foreign currency and to maintain a balance between net long and short open positions so that both the impact of exchange rate volatility and the maximum loss likely to be recorded are minimal.

Also, to measure the risk related to the currency portfolio, part of the market risk assessment,

the Bank has internal procedures, namely the Value-at-Risk (VaR) methodology, through which it aims to fall within the maximum loss likely to be recorded on the total currency portfolio, in a certain period of time (h) and with a certain confidence probability.

In order to prevent situations of not falling within the internal limits in terms of market risk, the Bank carries out stress scenarios.

Through the Risk Management Policy and risk profile, the Bank aimed during 2024 to fall within an average market risk profile, a profile in which it fell throughout the year.

c) Interest rate risk outside the trading portfolio

Interest rate risk is the current or future risk of adverse effects on profits and capital due to the adverse changes in interest rates.

According to the interest rate risk management policy, part of the risk and risk profile management Policy, the Bank aims to optimize the gap between assets and liabilities sensitive to interest rate variations, both in total and overdue dates range, so that the impact of interest rate variations on net interest income is as small as possible, resulting in the risk profile assumed. The Bank seeks an adequate management of interest assets and liabilities, corroborated with actions to promote existing products in the Bank's portfolio, as well as the launch of new products, both on the asset and liability side (for example: bonds issued with fixed interest rate), in order to create a portfolio with low sensitivity to interest rate variations and to achieve the targets set by the risk profile.

In order to assess the interest rate risk, starting from April 2022, the Bank develops activities specific to a small trading portfolio, within a total maximum position limit of RON 200 million equivalent, available for Romanian government securities, corroborated with the re-acquisition of the status of primary dealer in government securities from May 2022, meaning that the Bank holds positions with the intention of trading or for the purpose of hedging positions held with the intention of trading. The interest rate risk is identified, quantified, monitored, managed and reported in all the bank's activities that involve potential variations in interest rates at banking book level (for activities outside the trading portfolio).

Compliance with the risk profile assumed for the interest rate risk is managed through the levels established for the key indicators based on the risk appetite that the Bank assumes with the aim of continuing business on a prudent and sound basis.

The levels accepted by the Bank for the key indicators, as well as the ranges considered for their evaluation, were established taking into account the Bank's strategy regarding interest rate risk, assessed as significant risk, correlated with the limits imposed by the NBR/EBA regulations, with the historical evolution of the values of these indicators, the size and structure of the assets and liabilities taken into account when determining them, the results obtained following the various forecasts made, budget provisions, etc.

The Bank evaluates the classification within the assumed interest rate risk profile according to interest rate risk appetite; the level of risk is quantified based on a scoring system of the key indicators related to the interest rate risk according to the levels recorded by them and the weights assigned according to the importance of the indicators based on historical analysis and professional expertise.

Also, to prevent situations of non-compliance with internal and regulated limitations, the Bank monitors the dynamic evolution of assets and liabilities sensitive to interest rate variations and performs simulations, forecasts, prognosis, "stress testing" scenarios, etc.

Through the risk management and risk profile policy, to carry out a prudent activity, characterized by the permanent monitoring and control of the level of key indicators for interest rate risk in relation to risk appetite, the Bank seeks in 2024 to comply with a medium interest rate risk profile, profile which has been observed all months during 2024.

d) Exposure to liquidity risk

Liquidity risk expresses the current or future risk of negative impact on profits and capital, determined by the Bank's inability to fulfill its obligations when they are due, having as potential causes: insufficient liquid assets, the Bank's inability to liquidate assets, the inability to obtain adequate financing.

The Bank has adequate liquidity potential when it can obtain the necessary funds (by attracting additional sources, selling assets, participating in REPO auctions with counterparties other banks/ the NBR etc.) immediately and at a reasonable cost, which does not affect the Bank's profitability.

The identification of liquidity risk, and therefore the Bank's exposure to risk, is carried out through knowledge of the structure of funds attracted and invested in order to ensure a higher quality of net fund flow forecasts, knowledge of the behavioral characteristics of the Bank's customers, assessment of liquidity needs in the short, medium and long term, according to seasonal factors, large customer operations, volatility of deposits and loans, and identification of liquidity generating and liquidity consuming items.

The liquidity risk management policy is part of a solid and specific framework for liquidity risk management, including the process of identification, evaluation/quantification, monitoring, mitigation and control, by which the Bank aims to achieve mainly a balanced portfolio of the Bank's assets and liabilities, which ensure optimal liquidity.

The Bank aims an adequate management of assets and liabilities, leading to the maintenance of sufficient liquidity, including the liquidity reserve (available liquidity, which covers the Bank's additional liquidity needs that may arise over a defined short time horizon - two weeks - in crisis/unforeseen circumstances), correlated with proposals for new products, services, contracts to which the Bank is a party, internal regulations, or significant change to the characteristics of existing products, before being submitted for endorsement/approval according to the powers, with a view to assessing the liquidity risk they may generate.

The implementation of the Policy and the achievement of the liquidity risk objectives are achieved, mainly and without limitation, through the monitoring and permanent follow-up of the risk limitations of key indicators (liquidity and financing indicators) for managing the liquidity risk that support the determination of the liquidity risk profile and level II indicators – early warning indicators.

Through the liquidity risk and liquidity risk management policy, to carry out a prudential activity, characterized by the permanent monitoring and control of the level of key indicators for liquidity risk in relation to risk appetite, the Bank seeks in 2024 to comply with a medium liquidity risk profile, profile observed all months during 2024.

The Bank also issued the "Policy regarding the Internal Liquidity Adequacy Assessment Process" (ILAAP) that seeks to integrate into the general practice of liquidity management at least the

following: the liquidity planning process, maintaining an adequate level of liquidity to cover certain risks to which the Bank is likely to be subject, monitoring specific liquidity risk indicators, identifying vulnerabilities and evaluating potential dangers in a timely manner, corroborated with permanent actions to prevent to such situations, the process of obtaining conclusions and making decisions, including in crisis conditions.

For the purposes of the Bank's internal risk liquidity adequacy assessment process, the Bank considers mainly the following: risks not covered by liquidity requirements, including intraday liquidity risk and liquidity risk for longer than 30 days; concentrations on important balance sheet/off-balance sheet lines; funding gaps in short, medium and long-term due dates range; possibilities to hedge funding gaps in different currencies; results of crisis simulations, etc.

The specific ILAAP framework is represented by information regarding liquidity and funding risk management framework; funding strategy; liquidity reserves strategy and collateral management; cost and benefit allocation mechanism; intraday liquidity risk management; liquidity crisis testing and liquidity contingency plan.

According to the provisions of the RNB Regulation no. 5/2013 on the prudential requirements for credit institutions, the Bank issues the Internal Capital Adequacy Assessment Process (ICAAP) and Internal Liquidity Adequacy Assessment Process (ILAAP) within the Bank every year/quarter, document facilitating the supervisory assessment of the soundness, effectiveness and comprehensiveness of the ICAAP and ILAAP processes.

e) Exposure to operational risk

Operational risk is the risk of loss resulting either from the use of inadequate or failed processes, internal systems and human resources, or from external events and actions. Operational risk also includes legal risk, information and communication technology (ICT) and security risk, model risk and behavior risk.

The Bank aims to establish an operational risk management framework by creating policies and processes to identify, assess/quantify, monitor, control/mitigate and report operational risk, with a view to ensuring the prevention of conflict of interest by separating the operational and monitoring tasks.

The operational risk management policy establishes the general requirements for the

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

development of the bank's internal procedures and how to fit the risk profile, while ensuring the continuity of business on a sound and prudent basis.

The operational risk management process takes into account the classification of operational risk incidents into the following categories of operational risk events:

- internal fraud.
- external fraud.
- occupational safety and employment policies.
- customers, products and commercial practices.
- damage to tangible assets.
- business interruption and malfunction of systems.
- process execution, delivery and management.

Operational risk is identified and assessed for each existing and newly introduced banking activity, product and service at the level of each Bank unit.

In order to monitor operational risk, the Bank has established in its internal regulations a set of operational risk indicators (KRI) - backward-looking and forward-looking type instruments.

The Bank assesses on a quarterly basis the classification within the operational risk profile according to the assumed credit risk appetite. The level of risk is quantified based on a scoring system of key credit risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

In 2024, the indicators related to operational risk were monitored (key indicators and level II indicators), the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations.

The risk management policy and risk profile of the Bank for the year 2024 has established that the operational risk appetite that the Bank is willing to assume is that corresponding to a medium risk profile.

During 2024, the Bank has a moderate operational risk profile, with no risk exceeding the level of risk allowed for the established risk profile - medium.

f) Exposure to reputational risk

Reputational risk is the current or future risk of negative impact on profits and own funds, or liquidity caused by damage to the reputation of the credit institution.

The strategy of the Bank is meant to maintain and increase the Bank reputation.

In order to reduce the reputational risk, the Bank has in mind, mainly and without limitation, a prevention policy regarding the occurrence of fraud risk, permanent updating of internal regulations regarding the standards and actions to be followed in the activity of knowing customers, politically exposed persons, prevention of money laundering and terrorism financing, timely resolution of complaints/petitions made by some customers of the Bank, etc.

The reduction of reputational risk is mainly achieved through preventive measures regarding internal and external fraud, protection of personal data of customers, permanent update of the Bank's regulations, monitoring of the volume of petitions/complaints, conducting an appropriate communication policy, adequate promotion of the Bank's image, as well as by measuring/monitoring a potential impact on the evolution of the attracted sources of the Bank, following the occurrence of a significant reputational risk event.

The Bank assesses on a quarterly basis the classification within the reputational risk profile according to the assumed reputational risk appetite. The level of risk is quantified based on a scoring system of key reputational risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

In 2024, the indicators related to reputational risk were monitored, (key indicators and level II indicators) the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations, the Bank falling within the low reputational risk profile, the reputational risk appetite that the Bank is willing to assume being that corresponding to a moderate risk profile.

g) Exposure to strategic risk

The strategic risk represents the actual or future risk of negative affectation of profiles and capital determined by business environment changes or by unfavorable business decisions, by the non-corresponding implementation of decisions or the lack of reaction to changes in the business environment.

The factors that influence the apparition and development of strategic risk may be:

- internal factors: organizational structure, organizational culture (values, goals, expectations), resources (skills, knowledge, abilities - of leadership, management, employees), etc.;
- external factors: technological changes (at the market and competition level), economic factors (global, regional or national, which may affect the level of profitability), regulatory framework (changes in normative acts, legislation in force, tax rules issued, etc.), changes in the political regime, natural disasters, terrorist attacks, etc.

Taking into account the predominantly uncontrollable and unquantifiable nature of strategic risk, especially that due to external factors, in order to limit the possible effects generated by its occurrence, in order to ensure adequate monitoring and to establish effective means of recovery, the Bank follows and ensures:

- the establishment of some rationale strategic goals;
- the adoption of a prudent policy;
- the continuous analysis of the market evolution related to budgeted activities;
- the implementation of an overall governance framework, including committees and approval authorities as well as clearly established flows, allowing for a rigorous process for decisions with potential strategic impact to be taken at the strategic level and subsequently implemented at the operational and tactical levels.

The Bank also analyzes and reviews regularly the business models in order to assess strategic and business risk and to ensure:

- the viability of the current business model from its capacity point of view to generate corresponding profit within a short period of time;
- the sustainability of the Bank's business strategy from its capacity point of view to generate corresponding profit within a longer period of time, according to the strategic plans and economic and financial estimates;

The strategic goals set out in the Bank's Business and Risk Strategy are translated and quantified through budgeted objectives set by the Bank. In this regard, progress for the achievement of the strategic goals established in the Business and Risk Strategy and their fulfilment can be followed using the key strategic risk indicators established, monitoring/following the degree of achievement of the budget targets presented in the annually approved income and expenditure budget.

In 2024, the indicators related to strategic risk were monitored (key indicators and level II indicators), the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations.

The Bank assesses on a quarterly basis the classification within the strategic risk profile according to the assumed strategic risk appetite. The level of risk is quantified based on a scoring system of key reputational risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

During 2024 strategic risk fell into a low strategic risk profile, the strategic risk appetite that the Bank is willing to assume, as set out in the strategic risk management policy and strategic risk profile – integral part of the Bank's risk management policy and risk profile, being that corresponding to a moderate risk profile.

h) Exposure to risk associated to outsourced activities

Outsourcing an activity represents the use by the Bank of an external supplier in order to carry out, on a contractual basis and on an ongoing basis, activities that would normally be carried out by the Bank.

The Bank also accepts chain outsourcing, subcontracting being allowed only with the prior consent of the bank and under the same conditions as outsourcing to the main external supplier.

The risk management strategy for outsourced activities of the Bank is based on the policy of the Bank as regards the outsourcing of the Bank's activities and is implemented through internal regulations on the outsourcing process and associated risk management.

In achieving its objectives and goals, the Bank identifies and implements, where appropriate, organizational changes leading to improved efficiency. The Bank will consider the possibility of outsourcing activities in cases where outsourcing leads to increased efficiency of the Bank's activities without prejudice to its core objectives, according to the Policy on outsourcing of activities within the Bank.

During year 2024, the Bank classified into a moderate profile of risks associated to outsourced activities. The appetite to risks associated to outsourced activities that the Bank is willing to assume according to the Risk Management and Risk Profile Policies for the period 2024-2026,

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

being that corresponding to a moderate risk profile.

In order to manage the significant risks associated with the outsourcing of activities.

The bank has regulated outsourcing procedures that include the methods of selection and evaluation of external suppliers of goods and services, procedures for monitoring the way in which external suppliers of goods and services carry out the outsourced activities, alternative plans and the costs and resources necessary for changing the supplier.

In 2024, the indicators related to the risk associated with outsourced activities were monitored (key indicators and level II indicators) the results recorded by the indicators showing that they fell within the framework levels/monitoring limits established by internal regulations.

Capital adequacy

From the point of view of the impact of risks on the level of own funds, through the Policy on the Internal Capital Adequacy Assessment Process, the Bank seeks to establish in a consistent manner, related to the risk profile and the conditions in which the Bank operates (business environment), targets for the ratio between the level of internal capital (own funds) and the risks assumed.

Within the internal risk capital adequacy assessment process for 2024, the Bank has sought to have sufficient own funds within internal capital to cover both risks for which there are regulatory capital requirements (credit risk, settlement risk, credit value adjustment (CVA) risk, currency risk, adjustment risk operational risk), capital buffers and risks for which regulatory capital requirements are not fully covered.

The Bank is subject to annual supervision and inspection actions by the Supervisory Directorate within the NBR, and in 2024 (during 01.04 - 30.09.2024) such an action was carried out, and the activity carried out by the Bank was verified from the date of the conclusion of the previous inspection action until 31.12.2023 (with extension of the period for other dates, where appropriate), as well as other aspects (regarding the business model, the activity management framework and control procedures, capital risk, liquidity and financing risk, capital and liquidity adequacy, as well as the way the measures ordered by the NBR are implemented or established by the bank through remedial action plan).

1.9 Perspective elements regarding the Issuer's activity

1.9.1 Presentation and analysis of trends, elements, events or uncertainty factors that affect or could affect the liquidity of the issuer, compared to the same period last year

The year 2024 was characterized by a historic liquidity surplus of the banking system, which decreased by more than half throughout the year. Thus, in January 2024, the National Bank of Romania (BNR) was a net debtor to the banking system, with banks placing 60.7 billion RON in the deposit facility, an amount that dropped to 18.3 billion RON in December 2024.

The evolution of the main Basel III liquidity indicator, the Liquidity Coverage Ratio (LCR), showed a decreasing trend, dropping from 280.6% in December 2023 to 254.9% in December 2024. The LCR values recorded at the banking system level (including at the Bank level) in 2024 remained significantly above the regulatory requirement set by NBR/EBA, with the aggregate indicator exceeding the 100% threshold, indicating a substantial stock of high-quality liquid assets for a 30-day stress scenario.

Developments in the Consolidated Financial Position

The lending activity registered an 18% growth, primarily driven by the Legal Entities segment, where the volume of loans increased by 21% compared to 2024. In the individual customers segment, the total loan book grew by 8%, driven by both a 14% increase in mortgage loans and an 18% rise in consumer loans.

In the upcoming period, the main objectives will focus on organic business growth and enhancing operational efficiency. Additionally, new strategic directions are planned, specifically targeting the development of the "CEC Bank Financial Group."

To achieve these objectives, the Group, particularly CEC Bank, will focus on the sustainable strengthening of its market position, both in terms of business volume and productivity, profitability, and risk indicators.

In terms of financial performance, CEC Bank reached 3rd place in 2024 in the top 10 banks in Romania by assets, reflecting the results achieved and the growth in financial performance

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

including as a result of investments made in recent years. The Bank aims to consolidate this position within the top rankings in the upcoming period.

New loans granted to individuals are forecasted to register single-digit growth in 2025, as it is expected that no new government programs will be launched. Significant growth in personal loans and mortgage loans will be supported by the launch of several promotional campaigns. These campaigns already benefit from an enhanced promotional strategy, focused on diversifying communication channels and optimizing the product offering for clients. Additionally, the bank continues its digitalization efforts, facilitating quick and simplified access to lending products. In parallel, an increase in funds attracted from individual customers is anticipated, supported by competitive conditions and savings products tailored to market needs. CEC Bank aims to further strengthen its position in the retail segment and improve the accessibility of its financial products.

Regarding the Legal Entities segment, the Bank intends to maintain its market share in loans at the level recorded at the end of 2024, while a slight decrease in market share for deposits is anticipated, due to the expected closure of large-ticket items. The Bank will continue to target the agri-food industry, construction, and renewable energy, as well as, in general, small and large Romanian-owned companies. Development plans for clients will continue to be supported through tailored financing, aimed at facilitating re-technologization processes, energy efficiency, and the support of operational activities.

The intention to increase the share capital of CEC Bank was included in the State Budget Law for 2024. Due to procedural reasons, this process could not be completed in 2024 and was therefore included in the draft state budget for 2025.

In March 2025, CEC Bank completed an important step in the transformation process, namely the agreement of the European Commission for a recapitalization worth 1 billion RON.

This capital increase will allow for higher business volumes, increased revenues, better absorption of operating expenses and an improvement in the efficiency and profitability of the Bank. For the Romanian State, as the sole shareholder, the capital increase represents an investment that, in the medium to long term, will bring additional revenues to the state budget, including in the form of dividends.

Evolution of the Profit or Loss Account

Operating income is forecasted to register steady growth, primarily supported by net interest income and net fee and commission income, driven by adjustments to the fees and commissions applied, in line with market trends and competitors' offerings.

Plans to align the compensation policy with financial performance, through salary increases and bonuses based on results, investments in technology and inflation, will contribute to an increase in administrative expenses in 2025. However, a stable cost-to-income ratio is planned to be maintained throughout the year.

The cost of risk is expected to be significantly lower compared to 2024, as the Bank has already implemented measures to improve the quality of its loan portfolio. These measures include accelerating the recovery of non-performing loans and optimizing the origination and monitoring processes, with visible effects in the medium to long term.

At the strategic level, from the perspective of human resources policies, the Bank aims to continue its efforts to align the compensation policy with financial performance, focusing on the development of human capital, strengthening an organizational culture based on performance, and change management.

An improvement in key indicators is expected, both in terms of profit, as well as profitability and the cost-to-income ratio.

Additionally, alongside significant investments in technology, CEC Bank seeks to redesign client workflows and simplify internal processes, with a direct impact on both revenues and expenses.

We now present the analysis of the main elements of the profit and loss account, as well as an analysis of key profitability indicators for the year 2024 compared to 2023, conducted at the level of the CEC Bank Financial Group.

At 31.12.2024, the Group recorded a gross profit of RON 823 million (RON 779 million at Bank level), which generated a total profit tax of RON 135 million (RON 131 million at Bank level), thus resulting in a net profit of RON 688 million (RON 668 million related to the Bank).

Thus, the Group's management has further demonstrated that it has the necessary determination and expertise to direct the efforts of the entire team towards achieving the proposed goal, succeeding to maintain the synergy effect already created at the team level, which allows CEC Bank to remain a strong bank in the banking system Romanian.

The variation of the main elements of the profit and loss account in 2024 compared to 2023 at the level of the CEC Bank Financial Group is as follows:

- Net interest income increased by approx. 29.4% in 2024 (respectively by approx. RON 483 million), due to the increase in interest income, generated by the monthly increase in the balance of loans and investments (securities, banks, etc.) in a context where market rates continued to remain at a high level. Thus, interest income increased by approx. RON 1,149 million, while interest expenses also registered an upward trend, being increased by approx. RON 666 million.
- Net income from commissions decreased by approx. 11.6% (respectively by approx. RON 32 million) mainly due to the increase of the revenues from commissions charged by the FGCR (increased by 70%), while the Bank did not increase commissions, in order to support its customers in this difficult economic context of high inflation and high interest rates.
- Operating expense registered a significant increase (by approx 24.3%) compared to those reported in the similar period of 2023, mainly due to the additional turnover tax. In the absence of this tax (which was not transferred to customers through higher margins/rates) the increase would have been only about 12.9%, being generated mainly by the increase in depreciation expenses, as a result of the investments made within the Transformation Program, of investments in the modernization of the territorial network and of the ATM/MFM fleet, and the increase in salary expenses.

Based on these developments, the cost-income ratio at the Group level has improved from the previous year's level, reaching 49.5% on 31.12.2024, compared to 50.6% at the end of 2023.

The cost of risk has also increased, in line with the loan portfolio growth.

Capitalization, profitability and financing

The Return on Equity (ROE) for the Group was 13.35% (13.06% for the Bank), compared to 12.53% for the Group at the end of 2023 (11.83% for the Bank). In the absence of the additional turnover tax, the Bank's ROE would have been 15.18%, marking a significant increase in profitability compared to 2023.

The total equity ratio for the Group stands at 26.6%, with a marginal increase to 26.7% compared to the level recorded at the end of 2023 (24.15%), remaining at a comfortable level relative to the minimum regulatory requirements.

The Bank maintained its solid solvency position throughout 2024. In November 2024, a MREL bond issuance worth EUR 300 million took place, continuing the program initiated at the end of 2022.

1.9.2. Presentation and analysis of trends, elements, events or uncertainty factors that affect or could affect the liquidity of the issuer, compared to the same period last year

The bank continued its modernization and transformation program at an accelerated pace. At the group level, the value of investments made in 2024 amounts to RON 244 million, up 38% compared to the previous year, of which over 80% are aimed at investments in IT systems.

Investment Plan - Group level (RON thousands, incl. VAT)	Group		Bank		2024 vs 2023	
					Group	Bank
	2024	2023	2024	2023	%	%
A. Information Technology Investments:	203,276	127,058	203,229	126,856	160%	160%
Current IT investments	154,561	92,053	154,532	91,850	168%	168%
Strategic IT Investments	48,715	35,005	48,697	35,005	139%	139%
B. Logistics and Infrastructure Investments:	40,448	48,929	39,661	48,142	83%	82%
Investments in Banking Security	6,408	6,600	5,747	5,833	97%	99%
Logistics-Related Investments – Branches and Agencies works and equipment	21,518	32,473	21,392	32,454	66%	66%
Investments in Brand Image Change	12,522	9,855	12,522	9,855	127%	127%
Total Investments	243,724	175,987	242,891	174,998	138%	139%

Within the Group, taking into consideration the small investments performed at the level of Rural Credit Guarantee Fund (RON 0.7 million), the highest values were recorded at the Bank level, respectively RON 243 million, up 39% compared to the previous year. An important share is still held by IT investments, where significant progress was made within the Transformation Program for the projects started in the previous periods:

- CRM: which aims to: improve business relations with customers, optimize processes, improve performance by increasing sales and customer loyalty;

- FIS Quantum: modern treasury platform for treasury activities and balance sheet management with new functionalities for the Bank's customers;
- ERP (SAP platform): updated financial-accounting platform
- Aquisition of the new Core Banking System, which will replace the current Core Banking with a modern and robust system, able to meet the Bank's development requirements;

Thus, IT investments have increased in 2024 by 39% compared to 2023, and special attention was paid to the strategic objective of implementing a new unitary "core banking" information system, which was also provided for in the Business Plan prepared for the period 2019-2023, as well as in the Business and Risk Strategy for the period 2024-2028. This objective is strategic for the Bank, being the basis for diversifying the range of products and services offered to customers and increasing the degree of digitalization, with direct effect on increasing the efficiency of business processes and with a favorable impact on profitability.

According to the detailed project plan, the system deployment strategy aims to complete implementation by the end of Q1 2027. The plan includes a series of activities such as configuring the standard solution for a predefined set of products, procuring and installing the infrastructure for the new Core Banking System, testing and identifying necessary customizations for the selected products, identifying, mapping, extracting, and migrating data from the current systems to the new one, conducting a pilot phase for migrating a subset of the loan portfolio, and preparing for the incremental migration of the loan portfolio, among others.

The net interest income of the CEC Bank Financial Group increased by 30%, reaching RON 2 117 billion RON in 2024, up from RON 1 635 billion in 2023. This growth is primarily due to higher business volumes, as well as higher interest rates, as detailed in the below table.

Element, RON million	Group		Bank		Variation		Group		Bank	
	December 2023	December 2024	December 2023	December 2024	Group	Bank	Volume Increase (%)	Interest rate increase (%)	Volume increase (%)	Interest rate increase (%)
Interest Income	4,087	5,236	4,086	5,231	1,149	1,147	960	189	959	188
Interest Expense	2,452	3,118	2,452	3,118	666	666	648	18	648	18
Net Interest Income	1,635	2,117	1,634	2,113	482	479	312	170	311	170

Interest bearing assets – average volumes	70,113	85,858	70,089	85,817	15,745	15,727		
Interest bearing liabilities – average volume	67,844	85,632	67,845	85,643	17,789	17,799		
Average annual rate of assets interest rates	5.83%	6.10%	5.83%	6.10%	0.27%	0.27%		
Average annual rate of liabilities	3.61%	3.64%	3.61%	3.64%	0.03%	0.03%		

Notes: * (average rate x average volume growth); ** (interest rate variation * average volume previous year)

1.9.3 Presentation and analysis of events, transactions, economic changes that significantly affect the income from the basic activity. Specifying the extent to which revenues were affected by each element identified. Comparison with the corresponding period last year.

The main influences due to the macroeconomic environment consist of changes in interest rates in RON, ROBOR, and IRCC and volumes of loans and deposits in stock and new, changes in yields on government securities, and changes in the evolution of leu against major currencies. Thus:

- ROBOR 3 months and ROBOR 6 months rates marked decreases of 30 and 29 bps, respectively, in 2024 and of 135 and 154 bps, respectively, in 2023.

Change in ROBOR, bps	ROBOR 3 months	ROBOR 6 months
January - December 23	-135	-154
January - December 24	-30	-29

- In 2024, the IRCC index used in calculating interest earned on loans granted to individuals registered a cumulative increase of 3 bps, while in 2023, this increase was higher, at 190 bps.

Change of IRCC, bps	IRCC
January - December 23	190
January - December 24	3

- The pace of Mortgage lending entered positive territory, registering a growth of 4.2% in 2024, while in 2023, it decreased by 0.4%. Consumer loans advanced by 16.9% in 2024, from a growth of 4.3% in 2023. Loans to legal entities (excluding public administration) had a lower growth rate in 2024, of 8.6%, while in 2023 they increased by 10.9%.

- The growth rate of non-governmental deposits was higher in 2024 compared to 2023: thus, deposits of individuals and legal entities (excluding public administration) increased by 12.4% and 7.6%, respectively, in 2024, while in 2023 deposits of individuals increased by 11.6%, and deposits of legal entities (excluding public administration) increased by 11.5%.

	Household loans		Non-financial companies' loans	Household deposits	Non-financial companies' deposits
	Mortgage	Consumer			
January - December 23	-0.4%	4.3%	10.9%	11.6%	11.5%
January - December 24	4.2%	16.9%	8.6%	12.4%	7.6%

- The evolution of the RON was much more volatile against the dollar, compared to that against the euro: thus: the leu depreciated by 6.3% against the dollar in 2024 and appreciated by 3% in 2023. The variation against the euro was insignificant in both periods: in 2024, the RON remained stable against the euro (change of 0.0%) and depreciated by 0.5% in 2023.

"+" depreciation/"-" appreciation	EUR/RON	USD/RON
January - December 23	0.5%	-3.0%
January - December 24	0.0%	6.3%

- The rising trend of RON government bond yields led to a decrease in RON sovereign bond prices in 2024, while in 2023 prices increases due to the downward trajectory of the interest rate curve. Thus, in 2024, RON sovereign bond yields increased between 53.5 – 114 bps, for maturities from 6 months to 10 years and in 2023, yields decreased approximately 70 – 196 bps, for maturities from 6 months to 10 years, according to the NBR fixing.

change, bps	Tbills 6 month	Tbills 12month	3-year bonds	5-year bonds	10-year bonds
January - December 23	-70.5	-79	-103.5	-160	-196
January - December 24	53.5	65	94	104	114

2. The tangible assets of the Bank

2.1 Specification of the location and features of the main production capacities owned by the Issuer

As of December 31, 2024, CEC Bank owns 611 plots of land and 856 buildings and has the most extensive network of units in Romania. The Bank carries out its activity through both owned and rented premises.

2.2 Description and assessment of the degree of wear and tear of the Issuer's property

As of December 31, 2024, the value of net tangible assets was RON 968 million, of which 73% is represented by plots of land and buildings.

In recent years, all the Bank's units have undergone modernization processes.

2.3 Specification of potential problems related to ownership right over the Issuer's tangible assets

There are no problems related to ownership right over the Banks's tangible assets.

3 Market for securities issued by the Issuer

3.1 Description of the markets in Romania and other countries where the issued securities are traded

The balance of debt securities issued as at December 31, 2024, including accrued interest, is in amount of RON 2,976,978 thousand (31 December 2023: RON 2,137,255 thousand).

During 2022 - 2024 the Bank had five drawdowns of MREL eligible Senior Non-Preferred bonds (SNPs), subscribed by professional investors through private and international placements: two

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

tranches in 2022, with maturity 30 December 2025, two fungible tranches in 2023 with maturity 07 February 2028 and one tranche in 2024, with maturity 28 November 2029.

Also, on 30 December 2024 the Bank exercised its early redemption option for the bonds maturing 2025, upon receiving NBR approval. According to applicable regulation, the 2 ISINs (XS2572123516, XS2572123433) would have been excluded from the calculation of MREL eligible liabilities since 31 December 2024, due to entering in their year of their maturity.

The 30 December 2025 maturing bonds had a total nominal value of RON 175,350 thousand, respectively a total nominal value of EUR 97,300 thousand EUR, bearing fixed coupon rates. The instruments had an early redemption clause for tax reasons, regulatory reasons or at the option of the issuer (as of 30 December 2024). Upon their early redemption, the issuer triggered the delisting procedures with Bucharest Stock Exchange, completed in early 2025.

The 7 February 2028 maturing bonds are denominated in EUR and were first issued on 7 February 2023 (EUR 119,300 thousand) and supplemented on 16 November 2023 (EUR 162,600 thousand), under the ISIN XS2574275280 and BSE trading symbol CECRO28E. According to the terms and conditions of the notes, the first tranche was listed on the regulated markets of Luxembourg Stock Exchange (LuxSE) on 7 February 2023 and of Bucharest Stock Exchange (BSE) on 24 February 2023; the total amount of EUR 281,900 thousand was listed after the two fungible tranches were cumulated.

The instruments have an early redemption clause for tax reasons, regulatory reasons or at the option of the issuer (as of 07 February 2027) and are bearing fixed coupon until the 07 February 2027, that becomes a variable coupon payable quarterly during their last year.

The 28 November 2029 maturing bonds are denominated in EUR and have a total nominal value of EUR 300,000 thousand EUR; their ISIN is XS2948748012 and the BSE trading symbol is CECRO29E. According to the terms and conditions of the notes, they were listed on the regulated markets of Luxembourg Stock Exchange (LuxSE) on 28 November 2024 and of Bucharest Stock Exchange (BSE) on 20 December 2024. The instruments have an early redemption clause for tax reasons, regulatory reasons or at the option of the issuer (as of 28 November 2028) and are bearing fixed coupon until the 28 November 2028, that becomes a variable coupon payable quarterly during their last year.

Annual Report 2024 in accordance with ASF Regulation no. 5/2018

The CEC Bank issued bonds are eligible for MREL purposes (Minimum Requirement for Own Funds and Eligible Liabilities - MREL).

The notes are issued under the base prospectus of the Bank's EMTN (Medium term Notes) Program approved on 18 November 2024 by CSSF Luxembourg (Commission de Surveillance du Secteur Financier Luxembourg) for a total ceiling for bonds issuing of EUR 1500 million (or equivalent in other currencies).

3.2 Description of the Issuer's policy regarding dividends

Not applicable.

3.3 Description of any Issuer activities for the purchase of its own shares

Not applicable.

3.4 If the Issuer has subsidiaries, specifying the number and nominal value of the shares held by the subsidiaries, issued by the parent company

In July 2023 CEC BANK S.A. became the majority shareholder of the Fondul Roman de Garantare IFN SA.

The shareholding structure on December 31, 2024 is presented as follows:

	No. shares held	The value of the shares held	% of share capital
Ministerul Agriculturii si Dezvoltarii Rurale	114	1.140	0.007%
CEC Bank SA	1,593,975	15,939,750	99.993%
TOTAL	1,594,089	15,940,890	100.000%

3.5 If the Issuer has issued bonds and/or other debt securities, the provision of the manner in which the Issuer is to settle its obligations to the holders of such securities

The Bank fulfills reporting, keeping relevant public information available to investors, as well as keeping relevant public information available to investors, according to the applicable legislation.

The Bank fulfills its obligations to pay the coupon related to the bonds held on the reference date, according to the final terms of the issued notes, by making the gross coupon payments to the Paying Agent, in order to distribute the amounts due to the final holders of the bonds, on the date of payment.

The Bank fulfils its obligations of notifying the investors in advance on early redemption of the issued bonds, according to their final terms and according to the applicable legislation.

According to the final terms of the bonds, the Bank has taken the steps to admit and maintain trading on the regulated market of the Bucharest Stock Exchange (and the Luxembourg Stock Exchange, as the case may be) of the issued securities. Currently the bonds issued are tradable through the regulated markets of LuxSE and BSE (XS2574275280 and XS2948748012). ISINs XS2572123516 and XS2572123433 are currently delisted from trading on the regulated market of BSE, due to the early redemption event on 30 December 2024.

A dedicated section was created on the Bank's website, where the relevant information for investors is periodically updated (addresses: <https://www.cec.ro/relatii-cu-investitorii-ro> and <https://www.cec.ro/investor-relations-en>).

The Bank can be contacted for more information about the bonds issued, at the email address investor.relations@cec.ro.

4 Issuer management

4.1 Presentation of the list of Issuer's administrators and the following information for each administrator

The structure of the Board of Directors of CEC Bank S.A. as of December 31, 2024 is the following:

- Mr. Valentin Mavrodin, Chairman;
- Mr. Bogdan Constantin Neacșu, Member;
- Mr. Ciprian Badea, Member;
- Mrs. Mirela Șîțoiu, Member;
- Mr. Mihai Gogancea Vătășoiu, Member;
- Mrs. Mirela Iovu, Member;
- Mrs. Simona Andrei, Member.

Valentin Tiberiu Mavrodin (48 years old) graduated from ASE Bucharest, the Faculty of Finance, Insurance, Banking and Stock Exchange, and has a master's degree in management.

He has over 22 years of experience in the public finances field, coordinated the project to implement the electronic payment system in Romania within the Ministry of Finance, acted as General Manager of the General Treasury and Public Accounting Directorate during the 2007-2017 period and as a secretary of state within the Ministry of Finance between 2017 and 2020. He has been operating in the private sector since 2021.

Between November 2010 and March 2013, for over 2 years he was a member of the General Meeting of Shareholders of CEC Bank. Since March 2013, he has been a member of the Board of Directors of CEC Bank, a position he also occupied for a few months during 2010-2011.

On September 12, 2022, he was appointed Chairman of the Board of Directors, a position he also held between May 11, 2019 and December 9, 2020.

The current mandate expires on May 11, 2027.

Bogdan Constantin Neacșu (45 years old) graduated from ASE Bucharest, the Faculty of Finance and Banking, specializing in banks and stock exchanges, and attended a master's degree in finance and banking within in the same institution, along with many other specific professional training courses.

With over 19 years of experience in the banking system, Bogdan Neacșu has held several management positions within several financial institutions, including Garanti Bank, Patria Bank, Volksbank Romania and BRD. His previous experience includes occupying the position of Vice Chairman responsible for business growth, risk and audit, compliance and control and corporate governance.

Since October 22, 2019, he has acted as General Manager and Chairman of the CEC Bank Management Committee, and in May 2021, he was elected Chairman of the Romanian Association of Banks.

The current mandate of General Manager - Chairman of the CEC Bank Management Committee, executive member of the Board of Directors expires on May 11, 2027.

Mirela Iovu (54 years old) has a PhD in Law, from the Bucharest Faculty of Law, while also having obtained a degree in legal sciences from the Faculty of Law of the "Lucian Blaga" University in Sibiu. Furthermore, she also has a Master of Business Administration (MBA) from the City University of Seattle, USA and obtained a professional postgraduate diploma in Governance, Risk and Compliance - ICA Professional Postgraduate Diploma in Governance, Risk and Compliance - from the International Compliance Association (ICA) in cooperation with The University of Manchester-Manchester Business School, also specializing in financial inclusion policies at the Harvard Kennedy School.

She has been an active member of several technical committees within the Romanian Association of Banks, and for 15 years she has been the representative of the banking community as a permanent member of the Legal Support Group of the European Payment Council (EPC), in Brussels, regarding the Single European Payment Area (SEPA) project. Furthermore, in 2019, she was elected Chairman of the Association of Legal Advisors within the Financial-Banking System, after occupying the position of Vice-Chairman for 3 mandates. Mirela Iovu has been an executive member of the Board of Directors of CEC Bank since December 22, 2022, the date of approval by the National Bank of Romania, her current mandate expiring on May 11, 2027.

Ciprian Sebastian Badea (48 years old) graduated from the Faculty of Law at the Spiru Haret University and has a master's degree in public policy and European integration.

He has over 23 years of experience within the Ministry of Finance (MF) and the National Tax Administration Agency, holding various coordination positions in the legal field, of which over 15 years as General Manager of the General Legal Directorate within the MF, a position he also

holds to this day. Between March 2012 and July 2014, he acted as General Secretary and Deputy General Secretary of the Ministry of Public Finance.

He has been a member of the Board of Directors of CEC Bank since 2006, with the current mandate expiring on May 11, 2027.

Mirela Şitoiu (53 years old) graduated from ASE Bucharest, the Faculty of Finance, Insurance, Banking and Stock Exchange, has a master's degree in public management, has good experience in national and transnational cooperation projects aimed at strengthening the institutional capacity. Furthermore, she also took part in postgraduate training programs run by the University of Social Sciences in Toulouse, France.

He has over 28 years of experience in the central public administration field, of which over 26 years in the field of human resources management within the Ministry of Finance. Between September 2020 and 2021, she acted as General Manager of the General Directorate of Revenue Monitoring and Overview within ANAF. She currently holds the position of General Manager of the General Directorate of Human Resources Management within the Ministry of Finance.

She has been a member of the Board of Directors of CEC Bank since 2013, with the current mandate expiring on May 11, 2027.

Mihai Gogancea Vătăşoiu (54 years old) graduated from the Romanian-American University, in the field legal sciences and law, has a master's degree in institutional management, community law and information management for national security and postgraduate studies in national security and defense.

He has over 29 years of experience in the public finances field, occupying various positions within the Tulcea and Bucharest General Directorate for Public Finances, as well as within the National Tax Administration Agency (ANAF), between May 2014 and February 2016 and between January 2009 and May 2012

as Vice Chairman of ANAF. He currently occupies the position of Deputy Head of Administration at the Fiscal Administration for Non-Resident Taxpayers within the Bucharest D.G.R.F.P.

Since 2015, Mihai Gogancea Vătăşoiu has been a member of the Board of Directors of CEC Bank, also holding a similar mandate during the 2009-2012 period. The duration of the current mandate expires on the date of approval by the National Bank of Romania of a new administrator to be nominated by the General Meeting of Shareholders for this position, but no later than May 11, 2027.

Simona Andrei (45 years old) graduated from the Academy of Economic Studies in Bucharest, has a master's degree in Finance and Banking and a PhD in Economics and Management, as well as the "Certified Accountant in International Financial Reporting (DipIFRS)" international certification, issued by the ACCA (*Association of Chartered Certified Accountants*). She has a professional experience of 21 years, of which 16 years within CEC Bank. For 7 years she occupied the position of manager of the Financial Department, and occupied the position of CFO (Chief Financial Officer) for 8 years. Starting in May 2018, while occupying this position, she coordinated the activity of the Financial and Accounting departments, being authorized by the National Bank of Romania to exercise the new responsibilities set.

Simona Andrei participated in the fall of 2024 in the "Board Practice and Directorship" program of Henley Business School - University of Reading, holding a "Postgraduate certificate" at the end of the internship.

In 2020, Simona Andrei took part in a program approved by the International Coaching Federation (ICF), thus acquiring the essential knowledge and business acumen necessary to coordinate her teams as efficiently as possible.

Simona Andrei became Manager - Vice-Chairman of the Steering Committee and a member of the Board of Directors of CEC Bank on December 22, 2022, the date of approval by the National Bank of Romania, her current mandate expiring on May 11, 2027.

The structure of the Board of Directors of Fondului Roman de Garantare al Creditului Rural – IFN SA as of December 31, 2024 is the following:

- Mrs. Toma Alina Mihaela, Chairman
- Mr. Pinte Adrian, member
- Mrs. Luchian Camelia, member
- Mr. Chiorean Ioan – Ciprian, member
- Mr. Lianu Ionuț, member
- Mr. Popescu Radu, member

4.2 Presentation of the list of members of the Issuer's executive management

The structure of the Steering Committee of CEC Bank S.A. as of December 31, 2024 was the following:

- Mr. Bogdan Constantin Neacșu, General Manager – Chairman.

6 Appendices

The following documents are attached hereto:

6.1 The Issuer's Articles of Incorporation, if such were amended during the reporting year.

There were no changes in 2024;

6.2 Resignations/dismissals, if such situations occurred within the board of directors, executive management, censors;

There have been no resignations/dismissals.

6.3 The list of the Issuer's subsidiaries and entities controlled by or controlling the Issuer (Appendix 2);

6.4 The list of persons affiliated with the Bank - The list of persons having special relations with CEC Bank S.A. is included in an Appendix hereto (Appendix 1);

6.5 The report of the CEC BANK S.A. Board of Directors for 2024, including sustainability statement;

6.6 The management's statement regarding the accountability for the preparation of the financial statements for 2024;

6.7 IFRS financial statements related to fiscal year 2024;

6.8 Report of the independent auditor KPMG Audit S.R.L. regarding the IFRS financial statements.

Bogdan Constantin Neacșu
General Manager, President of Executive
Committee

Ștefan Silviu Fota
Director, Accounting Division

Annex 2:
**List of Bank's subsidiaries and its
controlled entities**

The list of subsidiaries and entities controlled by the Bank

The list of CEC Bank SA's subsidiaries controlled as of 31 December 2024 consists of:

No	Legal entity name	Sareholding (%)	Entity type	Fiscal Code	Trade Register No.	General Banking/IFN Register No
1	Fondul de Garantare a Creditului Rural – IFN SA	99,993%	Subsidiary – directly controlled*	5439903	J40 /3050 /1994	RG-PJR-090029/2007 RG-PJR-090173/2007

* The Group continuously evaluates its control over the entities in which it has invested. Therefore, any change in structure that results in a change in one or more control factors determine a reassessment. These include changes in decision rights, changes in contractual arrangements, changes in financial or capital structure. The control assessment over the funds that FGCR has in administration from MADR and the related assets concluded that IFRS 10 requirements are not fulfilled and subsequently the Bank does not exercise control over these funds.

CEC BANK S.A.**Apply or Explain Statement 2024**

Provisions of the Corporate Governance Code	COMPLIANCE YES/NO/PARTIAL	Other clarifications
SECTION A		
A.1. All companies must have an internal Board charter that includes the Board's terms of reference/responsibilities and key management functions of the company, and that applies, inter alia, the General Principles in Section A.	YES	
A.2. Provisions for the management of conflicts of interest should be included in the Council Regulation. In any event, Council members must notify the Council of any conflicts of interest that have arisen or may arise and refrain from participating in discussions (including by not attending, unless not attending would prevent the formation of a quorum) and from voting on a resolution on the matter giving rise to that conflict of interest.	YES	
A.3. The Management Board or Supervisory Board must consist of at least five members.	YES	

A.4. The majority of the members of the Board of Directors must be non-executive. At least one member of the Management Board or Supervisory Board must be independent in the case of Standard Category companies. In the case of companies in the Premium Category, not less than two non-executive members of the Board of Directors or the Supervisory Board must be independent. Each independent member of the Management Board or Supervisory Board, as the case may be, must make a declaration at the time of his/her nomination for election or re-election, as well as at the time of any change in his/her status, indicating the elements on the basis of which he/she is considered to be independent in character and judgment and according to the following criteria:

A.4.1. is not a Managing Director/CEO of the company or a company controlled by it and has not held such a position in the last five (5) years.

A.4.2. is not an employee of the company or a company controlled by it and has not held such a position in the last five (5) years.

A.4.3. does not receive and has not received any supplemental remuneration or other benefits from the company or a company controlled by it, other than those corresponding to the status of non-executive director.

A.4.4. is not or has not been employed by or has not had during the previous year a contractual relationship with a significant shareholder of the company, a shareholder controlling more than 10% of the voting rights, or a company controlled by such a shareholder.

A.4.5. does not have and has not had in the previous year a business or professional relationship with the company or a company controlled by it, either directly or as a client, partner, shareholder, board member/director, general manager/executive director or employee of a company if, by its substantial nature, this relationship could affect its objectivity.

A.4.6. is not and has not been within the last three years the external or internal auditor or a partner or salaried shareholder of the current external financial auditor or internal auditor of the company or a

YES

company controlled by it.

A.4.7. is not a managing director/executive director of another company where another managing director/executive director of the company is a non-executive director.

A.4.8. has not been a non-executive director of the company for more than twelve years.

A.4.9. does not have family ties with a person in the situations referred to in points A.4.1. and A.4.4.

A.5. Other relatively permanent professional commitments and duties of a Board member, including executive and non-executive positions on the boards of not-for-profit companies and institutions, must be disclosed to shareholders and potential investors prior to nomination and during the term of office.	YES	
A.6. Any member of the Board must disclose to the Board information concerning any relationship with a shareholder who directly or indirectly holds shares representing more than 5% of all voting rights. This obligation relates to any kind of report that may affect the member's position on matters decided by the Council.	YES	
A.7. The Company must appoint a Secretary to the Board responsible for supporting the work of the Board.	YES	
A.8. The corporate governance statement will inform whether an assessment of the Board has taken place under the leadership of the Chairman or the nominating committee and, if so, will summarise the key actions and resulting changes. The company must have a policy/guideline on Board assessment including the purpose, criteria and frequency of the assessment process.	YES	
A.9. The corporate governance statement should include information on the number of Board and committee meetings held during the past year, the attendance of directors (in person and in absentia) and a report by the Board and committees on their activities.	YES	
A.10. The corporate governance statement must include information on the exact number of independent members of the Management Board or Supervisory Board.	YES	

A.11. The Board of Premium Category companies must establish a nominating committee of non-executive members, which will lead the process of nominating new members to the Board and make recommendations to the Board. A majority of the members of the nominating committee must be independent.	YES	
SECTION B		
B.1 The Board shall establish an audit committee of which at least one member shall be an independent non-executive director. The majority of the members, including the chairperson, must have demonstrated that they have appropriate qualifications relevant to the functions and responsibilities of the committee. At least one member of the audit committee must have proven and appropriate audit or accounting experience. In the case of Premium Category companies, the audit committee must consist of at least three members and the majority of the audit committee members must be independent.	YES	
B.2. The chair of the audit committee must be an independent non-executive member.	YES	
B.3. As part of its responsibilities, the audit committee must carry out an annual assessment of the internal control system.	YES	
B.4. The assessment should consider the effectiveness and comprehensiveness of the internal audit function, the adequacy of risk management and internal control reports presented to the Board's audit committee, the timeliness and effectiveness with which executive management addresses deficiencies or weaknesses identified through internal control, and the presentation of relevant reports to the Board.	YES	

B.5. The Audit Committee must assess conflicts of interest in relation to the company's and its subsidiaries' transactions with related parties.	NO	Conflicts of interest issues in relation to the transactions of the company and its subsidiaries with related parties are regulated in the Policy on the identification, assessment, management and reduction or prevention of actual and potential conflicts of interest within CEC BANK S.A.
B.6. The Audit Committee should assess the effectiveness of the internal control system and the risk management system.	YES	
B.7. The Audit Committee shall monitor the application of legal standards and generally accepted internal auditing standards. The Audit Committee shall receive and evaluate the reports of the Internal Audit Team.	YES	
B.8. Whenever the Code mentions reports or reviews initiated by the Audit Committee, these should be followed by regular (at least annual) or ad-hoc reports to be subsequently submitted to the Council.	YES	
B.9. No shareholder may be given preferential treatment over other shareholders in connection with transactions and agreements entered into by the company with shareholders and their affiliates.	YES	
B.10. The Board must adopt a policy to ensure that any transaction of the Company with any of its closely held companies whose value equals or exceeds 5% of the Company's net assets (as per the latest financial report) is approved by the Board following a binding opinion of the Board's audit committee and properly disclosed to shareholders and potential investors, to the extent that such transactions fall within the category of events subject to reporting requirements.	YES	

B.11. Internal audits must be carried out by a structurally separate division (internal audit department) within the company or by engaging an independent third party.	YES	
B.12. In order to ensure that the core functions of the internal audit department are fulfilled, it must report functionally to the Board through the audit committee. For administrative purposes and as part of management's obligations to monitor and mitigate risks, it must report directly to the CEO.	YES	
SECTION C		
C.1. The company must publish the remuneration policy on its website and include in the annual report a statement on the implementation of the remuneration policy during the annual period under review.	YES	
SECTION D		

D.1. The company must organise an Investor Relations service – indicating to the general public the person(s) responsible or the organisational unit. In addition to the information required by law, the company must include on its website a section dedicated to Investor Relations, in Romanian and English, with all relevant information of interest to investors, including:

D.1.1. Main corporate regulations: the articles of incorporation, procedures for general meetings of shareholders;

D.1.2. Professional CVs of members of the company's governing bodies, other professional commitments of Board members, including executive and non-executive positions on boards of directors of companies or non-profit institutions;

D.1.3. Current reports and periodic reports (quarterly, half-yearly and annual) – at least those referred to in point D.8 – including current reports with detailed information on non-compliance with this Code;

D.1.4. Information on general meetings of shareholders: agenda and information materials; the procedure for electing Board members; the arguments supporting the proposed candidates for election to the Board, together with their professional CVs; shareholders' questions on agenda items and the company's responses, including resolutions adopted;

D.1.5. Information on corporate events, such as the payment of dividends and other distributions to shareholders, or other events leading to the vesting or limitation of a shareholder's rights, including deadlines and principles applied to such transactions. Such information will be published within a timeframe that allows investors to make investment decisions;

D.1.6. Name and contact details of a person who will be able to provide relevant information on request;

D.1.7. Company presentations (e.g. investor presentations, quarterly results presentations, etc.), financial statements (quarterly, half-yearly, annual), audit reports and annual reports.

YES

D.2. The Company will have a policy on the annual distribution of dividends or other benefits to shareholders, proposed by the Chief Executive Officer or the Board of Directors and adopted by the Board, in the form of a set of guidelines that the Company intends to follow with respect to the distribution of net income. The principles of the annual shareholder distribution policy will be published on the company's website.	YES	
D.3. The Company will adopt a policy on forecasts, whether they are made public or not. Forecasts refer to quantified conclusions of studies that aim to determine the overall impact of a number of factors over a future period (so-called hypotheses): by its nature, this projection has a high level of uncertainty, the actual results may differ significantly from the forecasts originally presented. The forecasting policy will set out the frequency, time period and content of the forecasts. If published, forecasts can only be included in annual, half-yearly or quarterly reports. The forecasting policy will be published on the company's website.	YES	
D.4. The rules of general meetings of shareholders must not limit the participation of shareholders in general meetings and the exercise of their rights. The changes to the rules will take effect at the earliest from the next shareholders' meeting.	YES	
D.5. The external auditors will be present at the general meeting of shareholders when their reports are presented at these meetings.	YES	
D.6. The Board will present to the Annual General Meeting of Shareholders a brief assessment of the internal control and significant risk management systems as well as opinions on matters to be decided by the General Meeting.	YES	

D.7. Any specialist, consultant, expert or financial analyst may attend the shareholders' meeting on the basis of a prior invitation from the Board. Accredited journalists may also attend the general meeting of shareholders, unless the Chairman of the Board decides otherwise.	NO	The rules on the ordinary general meeting, extraordinary general meeting, convening and holding of general meetings are detailed in the Bank's Articles of Association published on the website www.cec.ro , under the heading "About us – Corporate governance CEC BANK , Legal information, legal framework".
D.8. The quarterly and half-yearly financial reports will include information in both Romanian and English on key factors influencing changes in the level of sales, operating profit, net profit and other relevant financial indicators, both quarter-on-quarter and year-on-year.	YES	
D.9. A company will hold at least two meetings/teleconferences with analysts and investors each year. Information presented on these occasions will be published in the investor relations section of the company's website on the date of the meetings/teleconferences.	NO	Information on the Bank's activities can be found on the Bank's website, www.cec.ro
D.10. If a company supports various forms of artistic and cultural expression, sporting activities, educational or scientific activities and considers their impact on the innovative character and competitiveness of society to be part of its mission and development strategy, it will publish a policy on its activity in this field.	YES

1. Introductory note

The CEC Bank Group (the "Group") comprises the parent company CEC Bank S.A. ("CEC", "CEC Bank" or "the Bank") and its subsidiary the Romanian Rural Credit Guarantee Fund ("FGCR" or "the Fund").

CEC Bank SA (the "Bank"), registered with the Trade Register under no. J/40/155/1997, operated in 2023 according to the provisions of the Government Emergency Ordinance no. 99/2006 on credit institutions and capital adequacy, approved with amendments and modifications by Law no. 227/2007, to the provisions of Law 31/1990 on trading companies and according to its Articles of Association, approved by Order no. 3397/2019 of the Minister of Public Finance, as further, amended and completed, as well as based on the Organizational and Operational Regulations.

During the financial year 2024, the operations of the Bank as well as those carried out for and on behalf of customers were recorded in accounting on the basis of supporting documents issued legally, according to the provisions of the Accounting Law no. 82/1991 republished, as further amended and completed, and according to the chart of accounts for credit institutions, approved by the Order no. 27/2010 of the National Bank of Romania, as further amended and completed.

The following were considered for the issue of the financial statements corresponding to year 2024:

- the provisions of Order no. 27/2010 of the National Bank of Romania on the approval of accounting regulations in line with the International Financial Reporting Standards

applicable to credit institutions (as further amended and completed);

- International Financial Reporting Standards – ("IFRS"), as adopted by the European Union;
- accounting policies approved by the Board of Directors of the Bank.

The assets were inventoried at all the Bank's units during 2024, according to the provisions of the Accounting Law no. 82/1991 republished, as well as to the provisions of the Order of the Minister of Public Finance no. 2861/2009 (as further amended and completed), approving the Rules on the organization and performance of the inventory of assets, liabilities and equity items.

The results of the inventory have been recorded in the accounts and reflected in the Bank's trial balance as of 31 December 2024.

Fondul de Garantare a Creditului Rural IFN ("the Fund") was established in February 1994, according to Law no. 31/1990, as a joint-stock company, following negotiations between the European Community Commission and the Government of Romania, represented by the Ministry of Agriculture and Rural Development, implementing the European Community's program to support the process of privatization of agriculture in Romania and was registered as an NBFi in 2006, based on OG no. 28/2006, amended by Law no. 93/2009. Starting on July 30, 2007, it received from the National Bank of Romania notification of registration in the NBR Special Register under no. RS-PJR-090029/2007 and in the NBR General Register under no. RG-PJR-41-090173/2007.

Fondul de Garantare a Creditului Rural IFN - has as its main activity the undertaking of guarantee commitments and the issuance of guarantees on behalf of public funds, own sources and any other sources.

The current registered office of Fondul de Garantare a Creditului Rural IFN is located at Strada Occidentului no. 5, sector 1, Bucharest, Romania.

At July 27, 2023, the Bank acquired 99.993% of the shares of FGCR, and Ministry Agriculture and Rural Development holds 0.007% of the shares.

This Report includes complementary data and commentaries, included in the following attached documents:

- The financial statements issued according to IFRS, including the opinion of the external independent auditor (**Appendix 1**);
- Report about the evolution of the Bank (**Appendix 2**);
- sustainability statement (**Appendix 3**).

The data presented in this Report reflect accurately the data recorded in the financial statements issued according to the International Financial Reporting Standards ("IFRS").

2. Macroeconomic considerations and at the level of the Romanian banking sector during year 2024

The year 2024 was an intense one due to the continuation of the war in Ukraine, as well as local, European Parliament, parliamentary, and presidential elections. Last but not least, 2024 marked Romania's partial entry into the Schengen area for maritime and air routes, after a sustained 17-year effort.

The continuation of the war highlighted the importance of an adequate defense budget, which coincides with a difficult fiscal period for Romania, who is forced to accelerate fiscal consolidation in 2025. The absorption of funds from the NRRP program was an extremely important topic in 2024, as these funds will finance multiple infrastructure projects and more, essential for the country's development. Despite efforts made, only a third of these funds have been accessed so far. The budgetary and external imbalance prevented the National Bank from lowering the monetary policy interest rate by more than 50 basis points in 2024, keeping it in a restrictive territory.

In 2024, the Romanian economy continued to slow down, from 2.4% in 2023 to 0.9%, a pace well below its potential. The sectors that experienced significant slowdowns were agriculture (-10.5% year-on-year) and construction (-2.4% year-on-year). The IT&C sector also struggled, reaching stagnation (+0.3% year-on-year). Meanwhile, the industry halted the decline that had begun after the pandemic. The biggest contributor to GDP on the production side was net taxes, followed by trade.

From the details of the high-frequency industrial production index, we can see that several industries have recovered compared to 2023: wood processing, chemical manufacturing, coke and petroleum processing, metal construction, and the manufacturing of other transport equipment. Other industries have shown growth dynamics

over the past three years: the food, tobacco, and paper industries.

The analysis of the services activity index reveals a mix between services that grew in 2024 and those that declined. In the first category, we observe growth in film production, advertising, and market research activities, while communications remained stagnant. In the second category, which experienced declines, we find transportation, IT, and business services.

From the details of the construction production index, it appears that the residential construction sector saw a decline in 2024, as did the non-residential construction sector, while engineering constructions benefited from a slight increase, supporting the investment component of the economy.

Regarding the evolution of trade, the retail and auto & motorcycle trade segments recorded growth, with wholesale trade being the only category that declined. Overall, the evolution was positive, which was reflected in the GDP structure on the production side.

On the expenditure side of the Gross Domestic Product, the economy returned to its previous structure, where the largest contribution came from consumption (3.2%), while investments even had a negative contribution, in contrast to the previous year's performance when they were the main driver of economic growth.

A difference compared to last year is also noticeable in net exports' contribution, which was negative in 2024, unlike the positive contribution in 2023, aligning with the increase in external imbalances in 2024. The evolution of inventories contributed positively to economic growth, adding +1%.

Thus, the real wage growth, averaging 7.5% in 2024—up from 4.4% in 2023—was reflected in an acceleration of consumption. Private sector lending also accelerated in 2024 (to 8.9% from 6.4% in 2023), with positive effects on consumption, further supported by a 30 basis point decrease in ROBOR interest rates (ROBOR 6 months).

Turning to the investment component, we observe a negative trend, driven by the private sector. Thus, in 2024, investment works in new constructions and equipment declined. From the budget execution data as of December 2024, we note a nominal increase of 19.4% in public investments, significantly exceeding the investment expenditure deflator of approximately 9%.

Non-governmental lending advanced by 8.9% year-on-year in December 2024, compared to 6.4% year-on-year in December 2023. The acceleration was driven by both the household segment (9.3% year-on-year) and the corporate segment (8.6% year-on-year). Regarding mortgage loans, they returned to positive territory (3.9% year-on-year) after a slight decline in 2023. Consumer loans saw strong growth, reaching 16.5% year-on-year, four times faster than in 2023.

Looking at the types of industries taking loans, we observe that agriculture and industry recorded growth of 6-7% year-on-year, while construction and services were in the 9-10% year-on-year range.

Non-governmental deposits maintained a pace similar to last year, advancing by 10.5% year-on-year in December 2024. Household deposits (12.5% year-on-year) grew faster than corporate deposits (7.6% year-on-year). In terms of currencies, growth was nearly similar, with deposits in RON increasing by 10.8% year-on-year and those in foreign currency by 9.6% year-on-year.

The banking system recorded lower profitability compared to 2023, although nominal profits increased. Thus, in 2024, the return on equity (ROE) stood at 18.4% (versus 20.1% in 2023), and return on assets (ROA) was 1.7%. The banking system's profit reached 14.2 billion RON (+3.4% year-on-year). Total assets (882 billion RON, December 2024) grew by 16.4% year-on-year, far exceeding the pace of lending, keeping the loans-to-deposits ratio relatively stable at 67.6% in December 2024. At the same time, the non-performing loan (NPL) ratio increased to 2.5% in December 2024, compared to 2.4% in December 2023, with a peak of 2.6% recorded in July and August.

Throughout the year, the banking system maintained a liquidity surplus, which declined to 18 billion RON in December 2024, down from 60 billion in January 2024. Given the liquidity

surplus, ROBOR interest rates remained below the monetary policy rate throughout the year.

In 2024, the National Bank of Romania (NBR) reduced the monetary policy rate by 50 basis points, which was reflected in ROBOR interest rates (3-6 months) with a smaller magnitude reduction of 24-30 basis points. Government bond yields increased by 90-115 basis points for maturities of 3/5/10 years and by 50-65 basis points for maturities of 3/6 months.

The increase in government bond yields in 2024 was also driven by macroeconomic imbalances, such as the budget deficit and the current account deficit. The budget deficit stood at 8.7% (cash), while the current account deficit reached -8.1%, up from -6.7% recorded in 2023.

The slowdown in economic activity was also reflected in inflation dynamics, which decreased from 6.6% in December 2023 to 5.14% in December 2024. Core inflation also declined, from 8.4% in December 2023 to 5.6% in December 2024.

The EUR/RON exchange rate remained stable in 2024, with an average exchange rate of 4.9746 (+0.6% year-on-year), while at the end of the period, the EUR/RON stood at 4.9741 (0.0% year-on-year). The average USD/RON exchange rate was 4.5984 (+0.5% year-on-year), while the end-of-period rate was 4.7768 (+6.3% year-on-year).

The macroeconomic outlook for 2025 suggests an acceleration of economic growth driven by a significant increase in investments, supported by EU funds. The National Commission for Strategy and Prognosis estimates a GDP growth of 2.5% in 2025. The National Bank of Romania's official inflation forecast places inflation at 3.8% by the end of 2025.

Market expectations point to monetary policy easing this year, in line with regional trends. However, these expectations are shaped under high uncertainty, given the impact of tariffs and the complex geopolitical situation.

3. The degree of achievement of the forecasts considered when establishing the activity targets of the Bank and the consolidated Group for year 2024

At 31.12.2024, the Bank achieved the main activity targets provided in the budget drawn up at individual and Group level.

The 2024 budget was built on the assumption of the establishment of an insurance company in 2024. In fact, the insurance company could not be established by the end of 2024 (the project being postponed to 2025). Thus, at 31.12.2024 the financial group CEC Bank included the Bank and FGCR. **The total net assets** realized at group level far exceed forecasts, reaching a historical value of over 99.3 bln. RON, the degree of achievement being approx. 31% over the budget.

The attracted sources from non-bank customers (excluding accrued interest) are in amount of approx. 85 billion RON at Group level, well above the budget provisions (by 34.3%, i.e. approx. 22 billion RON more), as a result of the collection of additional, unbudgeted sources, from some important clients of the Bank.

Regarding the value of **loans granted to non-bank clients**, the achievement rate at Group level is 168.5% for new contracted loans and 109.6% for loans in the balance (both percentages being attributed fully to the Bank, because FGCR did not grant loans in 2024).

In 2024, the Group made a net profit of 687.9 million RON (of which 668.2 million RON attributed to the Bank), 35% above the budgeted level, mainly as a result higher the budgeted of net interest income (after expected adjustments and losses) and commissions and lower administrative costs compared to the budgeted level, as a result of the optimal decisions taken by the Bank, in line with the existing macroeconomic context.

In 2024, the Bank's positioning in the top 5 players in the national banking system was also pursued, the Bank succeeding to maintain the 3rd place in ranking according to total net assets, and for this purpose the main objectives considered were:

- Continuation of the program to implement a modern and flexible Core Banking solution, as the basis of a scalable and easily to integrate architecture for customer services.
- Continuation of the digitization process, especially through the implementation of contactless technology also for ATMs and multifunctional machines (MFMs), in order to offer customers the most diversified and user-friendly services and products.
- Further modernization and consolidation of the Bank by organic growth.
- Further implementation of new functionalities which ensure providing loans online, so that the time to provide loans online is comparable to competing banks.

Details regarding the degree of achievement of the budget at group level in 2024 can be found in chapter 5.1 of this report. below.

4. Position and financial performance of CEC Bank Group during year 2024

In 2024, the Group focused its attention and resources on continuing to achieve the Group's mission and key strategic goals. Thus, the Group continued to support the financing of economic activity and individuals, while aiming to improve prudential banking indicators and streamlining operational flows.

The Group ended FY 2024 with total assets of RON 99 326 million, up 19% compared to 2023. The increase was mainly driven by the liabilities – resources from non-banking customers that lead to an expansion in the government securities portfolio (whose balance increased by RON 13 846 million), as well as the increase of the loan portfolio which increased by RON 5 603 million.

Total assets (RON Mil.) - Group

Compared to 2023, the balance sheet (financial position) and income statement (financial performance) as at 31.12.2024 are as follows:

4.1 Evolution of net balance sheet assets	Group		Bank	
	31 December 2024	31 December 2023	31 December 2024	31 December 2023

a) Analysis of the financial position

The Group ended 2024 with an asset value of RON 99 326 million, an increase of 19% compared to 2023, due to the growth of the portfolio of government securities held by the Group, but also the lending activity. This increase could be realized due to the growth of deposits from non-bank customers (whose balance was increased by RON 12 615 million). In FY 2024, in a market context marked by adverse geopolitical and macroeconomic developments (wars, inflation rates and high interest rates, etc.), the Bank managed to maintain its 3rd place in the top of Romanian banking system (based on total assets). Part of the deposits from customers, over budget (by about RON 21 billion more) or consisting in short/medium-term sources, were placed mainly in securities (which exceeded the budgeted amounts by about RON 23 billion) rather than as basis for loans, thus capitalizing on market and business opportunities, while maintaining a prudent attitude in evaluating available liquidity, which also had a positive impact on the net result (35% above the budget), showing the outstanding performance recorded by the Group in 2024.

The portfolio of government securities held by the Group includes financial assets measured at fair value through other comprehensive income (available – for – sale government securities) and financial assets measured at amortized cost (government securities usually held to maturity). The total value of the securities portfolio as at 31.12.2024 is of RON 44,215 million and recorded a significant increase compared to the previous year: financial assets measured at fair value through other comprehensive income increased by 56.2% respectively by RON 11 677 million and financial assets measured at amortized cost recorded an increased by 22.6% respectively by RON 2 169 million.

Loans and advances to customers registered a favorable evolution at Bank level (in full, because in 2024 FGCR did not grant loans), increasing by RON 5 602.9 million compared to 2023, respectively +17.7%.

Loans and advances to banks and public institutions decreased by RON 2 857.9 million compared to 2023, respectively by 34.4% at Bank level, while at Group level this category

decreased by RON 2 859.5 million, respectively by 34.3%.

The Bank's fixed assets and real estate investments in balance increased by RON 220.2 million, respectively by approx. 22.7%, mainly due to the favorable impact of the revaluation of buildings and land (RON 97 million) but also due to the sustained efforts to increase digitalization through various IT developments and software licenses acquisitions. At Group level, the increase was RON 220.2 million, respectively by 225%.

Deposits attracted from customers at Bank level increased by RON 12 636 million (by about 17.4%), compare to 2023, while at Group level there was an increase of RON 12 615 million, respectively 17.3%.

Deposits attracted from banks increased by RON 1 570.1 million (by 94.4%) compared to 2023, both at the Bank and Group.

The loans from financial institutions decreased by approx. RON 78.6 million (respectively by 43.9%), compared to the previous year, as some loans have reached maturity. The same values are presented at the Group level.

At the end of FY 2021, the Romanian State, by the Ministry of Finance, as sole shareholder, granted to the bank a subordinated loan amounting to RON 1 400 million for a 10-year period as of the time of drawing.

The differences in the change in the fair value of financial assets measured through other comprehensive income are due to the variation in yields on government securities in RON and the increased volume of securities included in the portfolio, compared to the balance at the end of 2023. In the last months of 2024, yields on securities in RON recorded an increase of almost 1 p.p. in December 2024 compared to December 2023 (but also with the levels recorded in the other months of 2024).

The reserve from the revaluation of fixed assets increased by RON 78 million, because in 2024 it was carried out the revaluation of the buildings and land.

Other reserves have increased with approx. RON 40.0 million compared to 2023, both at Bank and Group level, due to the legal reserve constituted by the gross profit for 2024.

4.3 Evolution of the income statement	Group		Bank

Net profit for the year	687 949	540 145	668 235	515 808

Note: the amounts include the provision for the participation of employees in profit for the year 2024, the legal reserve and the tax reserve from reinvested profits relating to IT assets acquired in 2024 (including the corresponding reduction in the income tax expense).

b. Analysis of the financial position

In 2024, the Group achieved a net profit of RON 687.9 million, up by approx. 27.4% compared to 2023. Thus, the Bank's management has demonstrated that it still has the necessary determination and expertise to direct the efforts of the entire team towards achieving the proposed goal, succeeding to maintain the synergy effect already created at team level, which allows the Bank to remain strong in the Romanian banking system.

Below are the main items of the 2024 income statement, compared to 2023:

- Net interest income increased by approx. 29.4% (respectively by about RON 482.8 million), due to the increase in interest income, generated by the monthly increase in the balance of loans and investments (securities, banks, etc.) in 2024, in a context in which market interest rates continued to remain at a high level. Thus, interest income has increased by approx. RON 1 149.0 million, while interest expenses also registered an increasing trend, with an increase by approx. RON 666.2 million.

- The net commissions income increased with approx. 11.6% (with approx. RON 32 million respectively) mainly due to the increase in commissions revenues charged by FGCR (70% growth) as a result of accessing a higher level of government programs than estimated.

- Staff expenses (including the expense provision for employee profit-sharing) recorded an increase by approx. 11.8% (i.e., by approx. RON 64.6 million), in correlation with the rights granted to employees according to the Collective Labor Agreement concluded with FSLs for 2024.

- Total operating expenses (excluding staff expenses) increased by approx. 28.5% (i.e. by about RON 248.7 million), the categories that recorded changes were:

- net expenses with expected loss adjustments corresponding to financial assets recorded an increase during 2024 by approx. 16.6% compared to 2023 (i.e., approx. RON 62.7 million), generated mainly by the increase in loan expenses related to non-banking customers by about RON 28 million and net expenses with other adjustments regarding contractual amendments related to loans, by about RON 43.4 million.
- net depreciation expenses increased by

RON 14.9 million due to new assets and assets under construction that were put into operation in 2024.

- Other operating expenses increased by RON 171 million, mainly due to the following:
 - The introduction of the turnover tax in 2024, amounting to approx. RON 118 million.
 - The increase in expenses for maintenance services and software support by about RON 17 million for integration and reporting platforms used by all alternative channels (Internet Banking, Mobile Banking, and Phone Banking), as well as automated off-premises sales flows,
 - The increase in expenses for external IT resources and automation of regulatory reporting, amounting to approx. RON 17 million.
 - The increase in expenses for maintenance and support services for MFM/ATM and EPOS equipment, amounting to approximately RON 15 million.
 - The increase in consulting expenses related to the implementation of the IT transformation program, amounting to approx. RON 7 million.
- Marketing and advertising expenses increased by RON 3.1 million compared to the previous year (26.7% increase compared to 2023).

5. Degree of achievement of targets estimated for 2024 and comparison of the Bank's indicators with those achieved at banking system level

5.1 Degree of achievement of targets estimated for 2024

At 31.12.2024, the main activity targets foreseen in the budget at consolidated level were achieved as follows:

RON million

Activity goals (objectives) at Group level	December-24		Actual vs. Budget	
	Actuals	Budget	Absolute	%
0	1	2	3=1-2	4=1/2
1. Total assets (net value)	99,326	75,795	23,531	131%
2. Non-banking customer loans contracted during 2024	15,152	8,992	6,160	169%
3. Non-banking customer loans in balance (principal - gross value, without attached receivables)	38,931	35,509	3,422	110%
4. Non-banking customer deposits (without attached debts)	84,521	62,940	21,580	134%
5. Government Securities	44,405	21,461	22,943	207%
6. Loans and advances to banks	5,691	8,294	-2,604	69%
7. Gross result	823	608	214	135%
8. Net result	688	509	179	135%

At the Bank's level, the main activity targets were achieved as follows

RON million

Activity goals (objectives) at Bank level	December-24		Actuals vs. Budget	
	Actuals	Budget	Absolute	%
0	1	2	3=1-2	4=1/2
1. Total assets (net value)	99,247	75,196	24,051	132%
2. Non-banking customer loans contracted during 2024	15,152	8,992	6,160	169%
3. Non-banking customer loans in balance (principal - gross value, without attached receivables)	38,931	35,509	3,422	110%

4. Deposits of non-banking customers (excluding attached debts)	84,542	63,410	21,132	133%
5. Government securities	44,370	21,022	23,348	211%
6. Loans and advances to banks	5,658	8,089	-2,431	70%
7. Gross result	799	612	187	130%
8. Net result	668	514	154	130%

The total net assets at Group level were achieved by RON 23.5 billion (31%) more than the consolidated budget (by RON 24.1 billion, respectively by approx. 32% more than the related budget of the Bank), both on the basis of significant additional sources, unbudgeted, attracted from important clients, legal entities of the Bank, as well as a result of attracted sources from individual clients through lower, more attractive interest rates.

Regarding the value of contracted loans granted to non-banking clients, the degree of realization is at a level of 169% (related to the Bank, in full), being well above the expected level.

The outstanding loans (related to the Bank, in full) were also realized at a level above the budgeted one by 10%, being due to the realization of 111.4% of the legal entities loans, but also to the realization of approx. 105% of loans related to individual customers.

The balance of deposits/sources attracted from the non-banking clients (related to the Bank) were made far above the budget (by 33%, respectively approx. RON 21 billion more), mainly as a result of the collection of significant additional sources, unbudgeted, attracted from important legal entity clients of the Bank, as well as other additional sources (over budget estimates) attracted from individual clients as a result of the attractive interest rates but also of the population's trust in the Bank's values.

At the Group level, the deposits/outstanding sources attracted from non-banking customers exceeded the budget by 34%, respectively RON 22 billion.

In a difficult market context, marked by adverse geopolitical and macroeconomic developments (wars, inflation rates and high interest rates, etc.), the Bank maintained the 3rd place in December 2024 in the Romanian banking system (depending on total assets).

Thus, at the end of 2024, the gross result at the Group level was achieved by RON 214.4 million (+35%) above the consolidated budgeted level (by approx. RON 187 million, respectively by 31% more than the Bank's budget), due to net interest income higher than estimated, as a result of higher investments in government securities and deposits with other banks, but also taking into account the increase in the balance of loans granted to non-banking customers, due to higher commissions revenue (from the activity of the FGCR subsidiary) and from other sources (e.g.: from the sale of certain buildings that were no longer used in banking activity).

Outstanding loans - at Group and Bank level

At the end of 2024, the outstanding loan portfolio related to non-banking customers (principal, gross value, without attached debts) is 17% higher (RON 5 760 million) compared to December 2023, an increase that the Bank managed to achieve in a year still marked by high inflation, by the unfavorable effects induced by overlapping crises and by the maintenance of high interest rates related to loans.

Out of the total value of outstanding loans, approx. 79% represents loans granted in RON. The largest increase was in the segment of legal entities, with approx. 21% compared to December 2023, i.e. RON 4 973 million (especially in loans for current activity).

The gross balance of loans for individuals has increased by 8% in 2024 compared to December 2023. In the structure, the balance of consumer loans increased by 18%, the balance of credit card loans increased by 31%, the balance of mortgage loans increased by 14%, while for loans granted under Government Programs suffered a decrease in balance compared to December 2023.

New loans contracted - at Group and Bank level

In 2024 new loans were granted to individual customers and legal entities amounting to RON 15 152 million (including letters of bank guarantee issued), detailed as follows:

New loans contracted in 2024	Number of loans	Value of loans (RON mil.)
1. Loans granted to individual customers:	64,143	3,353
2. Loans granted to legal entities:	11,015	10,949
3. Letters of bank guarantee issued	134	850
4. Total volume of new loans contracted non-banking customers (1+2+3)	75,292	15,152

From the total loans granted to individual persons, the largest share is held by the consumer loans amounting to RON 1 392.9 million, followed by mortgage loans, in the amount of 1 251.4 million RON.

Among new loans granted to legal entities, the largest share is held by loans for current activities (lines of credit, inventory financing, factoring, etc.), totaling RON 7,061.4 mil., followed by loans granted under Government Programs, amounting to RON 2,264.6 mil. With regards to the loans granted based on European funds, the number of facilities approved until 31.12.2024 is 86 392, and the total value of the grants amounts to RON 26 234 million, increasing by approx. 4%.

Facilities for projects investments, European funds and working capital for pre-financing support measures from European funds	Approved cumulated until 31.12.2024		Approved cumulated until 31.12.2023	
	No. Facilities approved	Value of the grant (RON mil.)	No. Facilities approved	Value of the grant (RON mil.)
	86,392	26,234	78,310	25,373

Deposits from non-bank customers - at Group and Bank level

The balance of deposits (excluding attached liabilities) increased in 2024 by approx. 17% (approx. RON 12,6 billion) compared to the end of 2023, from the amount of RON 71 917 million to the amount of RON 84 542 million in 2024, the increase being generated mostly by deposits attracted from legal entities (approx. RON 8,4 billion), on the basis of the collection of important amounts from certain large clients of the Bank. Also, increases have been recorded in the deposits attracted from individual clients, by approx. 11% more than December 2023 (respectively by approx. RON 4 billion). At Group level, the balance of deposits (excluding attached debts) increased in 2024 by approx. 18% (approx. RON 12.6 billion) compared to the end of 2023, from the amount of RON 71 917 million to the value of RON 84 521 million in 2024.

The currency structure of deposits recorded at the end of 2024 is roughly similar to previous periods, approx. 68% of total sources attracted are in local currency.

The significant increase in attracted sources was due to the attractive interest rates charged by the Bank, which were in line with the market interest rate, but most important is the confidence that non-banking customers continue to have in the fundamental values of the Bank - trust, honesty, stability.

Financial result

As at 31.12.2024, the Group recorded a gross profit of RON 822.6 million (RON 799.1 million at Bank level), which generated a total income tax of RON 135 million (RON 131 million at Bank level), thus resulting in a net profit of RON 687.9 million (RON 668.2 million related to the Bank).

Compared to 2023, the Bank recorded a gross profit in 2024 higher by RON 208 million (+35.1%). The Group's net interest income experienced a growth of approx. 30% in 2024 (an increase of approx. RON 483 million), driven by higher interest income resulting from the monthly growth in the loan and investment portfolio (securities, banks, etc.), in the context of sustained high market interest rates. As a result, interest income increased by approximately RON 1,149 million, while interest expenses also followed an upward trend, rising by approx. RON 666 million.

Net comission income increased by approx. 11.6% (or approx. RON 32 million), primarily due to the growth in fees collected by FGCR (a 70% increase), as a result of higher-than-anticipated participation in government programs, reaching RON 309 million at the Group level (RON 266 million at the Bank level).

Administrative expenses saw a significant increase (approx. 24.3%) compared to the same period in 2023, primarily due to the additional turnover tax. Excluding this tax (which was not passed on to customers through higher margins/fees in 2024), the increase would have been only approx. 12.9%, mainly driven by higher depreciation expenses due to investments made under the Transformation Program, investments in modernizing the branch network and ATM/MFM fleet, as well as increases in salary expenses.

5.2 Comparison of the level of the Group's and the Bank's indicators with those achieved at the banking system

The Bank's indicators as at 31 December 2024 related to the banking system are presented as follows:

RON billion		2024		
		Group	Bank	Banking system*
Financial result	Net profit	0.69	0.67	14.1
	Assets	99.33	99.25	881.7
	Total loans	37.23	37.23	623.2
	Total deposits of non-bank customers	85.36	85.38	807.6
%		2024		
		Group**	Bank**	Banking system*
Indicators	ROE	13.35%	13.06%	18.4%
	ROA	0.75%	0.73%	1.7%
	Total own funds ratio (solvency ratio)	26.60%	26.65%	23.7%
	Leverage	5.41%	5.42%	8.1%
	Cost-income ratio	49.53%	49.56%	50.3%
	Loan/deposits ratio	56.99%	56.99%	67.6%
	Non-performing exposure ratio (EBA definition)	4.74%	4.75%	2.5%

*) The information regarding net profit, total loans, and total deposits for the banking system is sourced from the press, as it is not yet available as of the current date.

**) The data source for the calculation of the Group and Bank's indicators as of December 31, 2024, is the FINREP financial statements on a consolidated and individual basis.

***) The source of information regarding total assets for the banking system is the data from the "Statistics" section of the National Bank of Romania website.

****) The data source for the cost-income ratio indicator is the SREP indicators as of September 30, 2024, provided by the National Bank of Romania (NBR).

The Bank has managed to maintain an appropriate level of banking prudential indicators in 2024, which remained within the limits set out in the Bank's risk management policy and risk profile for the period 2022-2024.

The intention to increase the share capital of CEC Bank was included in the State Budget Law for 2024. Due to procedural reasons, this process could not be completed in 2024 and was therefore included in the draft state budget for 2025.

The capital increase process will be completed after obtaining the authorization decision from the European Commission, in accordance with European legislation. In this regard, the Prudential Private Investor Test and the corresponding Business Plan 2024-2028 have been prepared, both of which are part of the notification procedure to the Commission.

The capital increase will strengthen the Bank's ability to meet capital requirements, enabling it to remain competitive in a constantly changing market and support sustainable development projects. For the Romanian State, as the sole shareholder, the capital increase represents an investment that, in the medium to long term, will bring additional revenues to the state budget, including in the form of dividends.

6. Evolution of non-performing loan portfolio

In order to ensure comparability across borders, the EBA (European Banking Authority) defines non-performing exposures as those with debt service of more than 90 days or for which the institution is unlikely to recover the entire claim resorting to guarantee enforcement measures. Based on this definition, the Bank's share of non-performing loans and advances (NPL ratio) as of 31.12.2024 was 4.75%, compared to previous year, namely 4.14%. At the banking system level, the share of non-performing loans and advances (NLP ratio) was 2.46% as of 31.12.2024 (the latest available date), compared to 2.37% at the end of last year.

The share of non-performing loans and advances (NPL ratio) (EBA definition) recorded an upward trend at the Bank level in 2024, with an increase of 0.61 p.p. compared to the previous year.

**Evolution of non-performing loans ratio in year 2024
compared to 2023
CEC Bank vs banking system (percentage points)**

During year 2024, the Bank has recorded in off-balance sheet accounts loans with poor recovery prospects amounting to RON 471 mil. and assigned non-performing receivables amounting to approx. RON 105 mil as well as due to the recovery measures undertaken by the Bank. Through the remediation office the significant clients classified in Stage S2, for which an increased credit risk was identified after granting the loan were monitored. The monitoring led to 129 reclassification operations to Stage S1 in 2024, with a total exposure of 3,959.5 million RON and the release of provisions amounting to 211.0 million RON.

The evolution of non-performing loans ratio (see below - Note) registered at the Bank level, compared to the banking system during 2018-2024, is presented as follows:

Evolution of non-performing loans ratio at the level of CEC Bank and banking system during December 2018 - December 2024

Note: During January 2015 – December 2024: non-performing loans have been determined according to the definition of non-performing exposures established by the EBA (as described above).

The latest available value at the banking system level is the one corresponding to the date of 31.12.2024.

As regards the non-performing loan ratio (according to the EBA definition) determined by type of customer, the Bank records a level of 2.68% for loans granted to households of population and 10.50% for non-financial companies as at 31.12.2024. The level of non-performing loans ratio for loans granted to local government authorities recorded by the Bank as at 31.12.2023 is 1.34%.

As regards the collateral coverage degree (collateral and guarantees issued by loan guarantee funds) and expected loss adjustments for non-performing exposures, the level of the indicator as at 31.12. 2024 is acceptable, as it results from the chart below (205.51%, in slight decline from 212.18% as at 31.12.2023), ensuring good risk coverage and even the possibility of resuming part of the expected loss adjustments in the balance to income when the guarantees/assignment of receivables are recovered, as the case may be.

Evolution of the collateral coverage degree and expected loss adjustments for non-performing exposures

The adjustment coverage for expected losses of non-performing loans is 55.71% as at 31.12.2024, in slight decrease compared to 31.12.2023 (57.76%). The guarantees coverage as at 31.12.2024 is a solid one, recording a level of 149.80%, decreasing compared to the level of 154.42% corresponding to the date 31.12.2023.

The adjustment coverage level for expected losses of non-performing loans is generated mainly by:

- good collateral coverage of these loans, most of them having both collateral and other types of guarantees (issued by specialized guarantee funds, etc.) in their collateral structure, thus creating the potential for high recovery rates.
- a very low volume of non-performing loans ratio for the loan portfolio granted usually without collaterals (consumer loans granted to natural persons).

The total number of exposures from loans with current restructuring measures in balance as at 31.12.2024 is 295, having a value of RON 1.433,73 mil. (approx. 3.65% of the total loan portfolio), out of which:

- 114 loans for natural persons, amounting to RON 20.08 mil. (0.20% out of the total loan portfolio for natural persons);
- 181 loans for legal persons, amounting to RON 1.413,64 mil. (4.86% out of the total loan portfolio for legal persons).

Considering the perspective for macroeconomic evolutions mentioned above, mainly due to external factors, there is a risk of negative developments on loan portfolio quality indicators.

7. Banking products and services

The Bank is constantly analyzing opportunities to expand its product portfolio, in order to offer to the customers a diverse range of quality products.

The Bank's products have been improved so that they can meet the expectations of customers, increasing the quality of the services offered in terms of the way of use, the waiting time or the level of comfort.

This year too, the Bank emphasized - according to the assumed mission - on the development of competitive products and services intended mainly for SME customers and the agricultural sector. Thus, during 2024 several new products addressed to Legal Entities customers were launched, being undertaken in parallel a series of actions to attract new customers and increase the loyalty of existing ones, namely

a) Actions undertaken in the crediting segment

Loans for legal persons:

Ref. No.	Product Description	Launching date
1.	Significant externalization of the infrastructure related to the Aurachain Platform in the Microsoft Azure cloud - the project "Standardization, simplification of financing products, optimization and automation of financing flows - APIA "	February 2024
2.	Development of financing products specific to state aid schemes – APIA	March 2024
3.	Completing the credit offer on specific financing products, based on OUG 18/2023 - PNRR - Digitalization of SMEs - grant up to EUR 100.000 per enterprise	
4.	Implementation of the specific financing product of the state aid scheme - Farmer's Credit, in the context of the crisis caused by Russia's aggression against Ukraine, and the Program's Application Rules	March 2024
5.	Implementation of temporary support measures for agricultural producers, legislated by GEO 4 of 29.01.2024 - in order to manage the effects of the soil pedological drought in 2023	March 2024
6.	Adjusting the financing conditions for loans granted under the Partnership signed with MEAT for the implementation of the National Programme for the development of activities for the commercialization of market products and services, the Programme for accelerating the development of small and medium enterprises and the multiannual National Programme for microindustrialization	March 2024
7.	Implementation of specific financing products of GEO no. 18 on the State Aid Scheme related to the IMM PLUS Program with its components, IMM ROMANIA PLUS, AGRO PLUS, AGRO PLUS, IMM PROD PLUS, CONSTRUCT PLUS, RURAL PLUS and INNOVATION PLUS	April 2024
8.	Completing the loan offer for financing investments in the agricultural sector with the loan for fruit producers	May 2024
9.	Implementation of specific financing products for the specific procedure of application of the Multi-annual National Program for the development of entrepreneurial culture among women managers in the SME sector - Femeia Antreprenor	July 2024
10.	Launching the Aurachain application - Pilot Phase - regarding the analysis and granting of APIA loans, at the level of all territorial units	July 2024
11.	Launching a financing campaign to increase the number of clients in the medical and industrial sectors	August 2024

12.	Completing the applicability of the granting commission to the financing granted for accessing non-reimbursable funds	September 2024
13.	Completing the loan offer with a new product for financing current activity - Financial recalibration loan	November 2024
14.	Adjusting the amount and applicability of the non-utilization fee applicable to credit facilities	December 2024

Loans for natural persons:

No	Product/Service Name	Date
1	Fixed Interest Adjustment Real Estate Mortgage Credit - RON, with fixed interest in the first 5 years, variable thereafter	02.2024
2	Campaign Real Estate Mortgage Credit - RON, with fixed interest in the first 5 years, variable thereafter	03.2024 12.2024
3	Introduction of a Retention Offer for customers with ongoing loans at CEC Bank and who wish to refinance to another bank	03.2024
4	Modification of PF credit card interest	09.2024
5	Campaign Personal Loan with fixed interest	11.2024 03.2025

b) Actions undertaken in the savings segment

In 2024, a series of measures were taken to increase the loyalty of current customers and attract new customers, as well as to support the population's savings process, as follows :

Retail Products

Individual customer product/service optimizations:

• Adjustment of interest rates on deposits and savings accounts for individuals:

- Modifying interest rates for all term deposits in RON, including interest rates related to savings accounts in line with the banking market trend, through 3 stages during the year;

• Modifying the current calculation mechanism by including cash deposit operations at the counter/MFM, in determining the loan turnover, applicable to all current account packages intended for individual customers (except the Figo Pay package).

• Modifying the Figo Pay package component by:

- ✓ including a number of 3 free interbank payments in RON, made via Internet/Mobile Banking in the component of the Internet Banking

service while maintaining the cost per package;

- ✓ modifying the debit turnover condition into a minimum monthly credit turnover on the current/debit card account, in RON, representing recurring income collection greater than or equal to RON 700.

• Changing the value of the credit turnover related to the Smart, Grija Completa and Bun Venit packages, from the value of the minimum net salary in the economy to the value of RON 2,000.

Completing the package component for individual customers by:

- ✓ including the Phone Banking service in the Smart, Grija Completa, Pensionar, Bun Venit and FigoPay packages while maintaining the cost per package and performing the authentication and authorization method for operations only by granting and activating the Token application;
- ✓ Including the Internet Banking service in the Bun Venit package, while maintaining the cost per package.
- Online and FSU (in territorial units) sales of the Pensionar package.
- Insuring operationality of the Student Free package on the short flow of opening Current Account Packages initiated in the territorial units (FSU) through the FintechOS platform, or on the assisted flow of opening packages

outside the unit.

- Changing the mechanism implemented in the Qbank application regarding the payments processed via instant channel, ordered through Mobile Banking by limiting them in terms of amount (maximum RON 15,000; RON 5,000 per transaction) and number of payments (maximum 3), with the following same day payments being processed/settled via standard channels (NBR/OP).
- Changing the interest rate level applied to the current account for the natural persons, the fees related to the current account and the conditions for exemption of the monthly administration fee for the natural persons current account packages, by introducing a new condition - "carrying out a transaction at merchants by using the card, regardless of the value", which will be cumulative with one of the existing conditions, depending on the package held; all changes are applicable since 12.02.2025
- Starting the project regarding the development and implementation of a new module in the Mobile Banking application - CEC app and a new package of products and services intended for youngsters between the ages of 10 and 18.

■ **New product/service launches/campaigns for individual customers/Offers:**

- ✓ Organizing the Anniversary Campaign - CEC Bank, 160 years since its establishment, by exempting the monthly administration fee for the Complete Care Package, for 6 months from the date of its purchase, applied to customers who purchase the package between November 25 - 27, 2025.
- ✓ Extension of the "Student Free - Win with the Play&Win wheel" campaign for a period of another 12 months (27.09.2024 - 27.09.2025) and modification of the Campaign mechanism in terms of the conditions for earning points
- ✓ Campaign extension for the "Complete Care" package, for 2 periods of 6 months each (14.03.2024 - 13.09.2024 and 27.09.2024 - 26.03.2025)) with:
 - maintaining the standard conditions regarding the application of the additional interest margin of 0.50% granted to deposits with subsequent deposits in RON established by clients who hold/purchase the "Complete Care" package
 - modifying the current margin granting mechanism implemented in the QBank application for deposits that have reached maturity and are automatically renewed by applying the current margin of 0.5%

■ Continuing the process of concluding salary agreements - Offering employees of companies/other structures with product and service packages (Smart/Premium/Complete Care) under advantageous cost/transaction conditions.

Products for legal persons:

- New products/services launches for legal entities:
 - Collateral deposit for guaranteeing PJ credit facilities in RON/EUR/USD/GBP, launched in March 2024.

Functionalities implemented:

- extending/reducing the validity by maintaining the IBAN provided to the client when opening the deposit
- the interest rate can be negotiated on different days, including after changing the maturity date
- the amount can be increased/decreased by transfer from/to the attached current account
- Collateral deposit guaranteeing commission CRC_PJ in RON. The Bank provides monthly fee payment services from the CEC Bank account opened at the National Bank of Romania (NBR) for the information services provided by the Central Credit Register (CCR). The client from NBFI (Non-Banking Financial Institutions) category will consult the CCR directly, outside the Bank. For the services provided by the CCR, the NBR will withhold the monthly commission from CEC Bank S.A. account, the amount being later recovered from the client's current account opened at CEC Bank.
- The automatic Overnight product in CAD was defined in order to increase liquidity in soft currencies (CAD)

■ **Optimization of products and services for legal entities**

- Modification of the Start UP Localnicii Package:
 - changing the name of the Localnicii Start-Up package into Start-UP Package
 - the introduction of the co-branded Visa Start-UP card with a new design and multiple non-banking benefits granted by the Visa organization
- Optimizing the distribution account product by adding the possibility to make external payments in RON
- Implementation of instant incoming payments on collector accounts/subaccounts
- Rerouting instant payments - the implicit/default instant settlement of interbank payments in RON, amounts < RON 50,000 made through Mobile Banking;
- Anniversary campaign to mark the Anniversary of CEC Bank - 160 years since its foundation - New customers who purchased the Optim SME Package between November 25 and 27, 2024 (over the counter/online) will have administration fee RON 0, for a period of 3 months from the date of purchase of the package.

■ Adjustments of the interest rate on term deposits in RON according to market conditions in two stages during the year: in February and October 2024

■ Simplification of legal entity enrollment/ updating documentation for clients with frequent changes of the signature specimen file.

■ The customer has the opportunity to:

- designate authorized persons on certain accounts, in which case the authorized persons may operate strictly on the indicated accounts;

- designate authorized persons on all accounts, that will have the right to operate on all accounts without the need to fill in all IBANs on the form;

- additional signature samples

- cancellation of signature specimens

■ Decommissioning products from the category of current accounts: Current account regarding sponsorships granted by CEC legal entity clients; Special accounts opened on the basis of convention; Special accounts opened on the basis of protocol.

c) Actions undertaken within the card activity in 2024

At the end of year 2024 the number of the Bank active cards was 1 429 486 (1 373 804 physical cards and 55 682 virtual cards), out of which 1 359 667 debit cards and 69 819 credit cards.

The number of financial transactions carried out via cards issued by the bank and the ATM and POS equipment network (counter and physical and virtual merchants, including SNEP - ghiseul.ro) in 2024 was 151.9 million transactions (cash withdrawal operations, payments at merchants), up 38.3% compared to the previous year and the value of financial transactions was RON 44 851 million, up 28% compared to the previous year. The number of non-financial transactions was 7 million transactions (balance inquiry, PIN change, mini bank statement).

Payments to merchants, both physical and virtual, made with the Bank's cards, recorded increases of over 33%, both in number and value in 2024 compared to 2023.

Contactless transactions registered significant increases in 2024 compared to 2023, the largest increases being recorded in contactless payments with cards through the Apple Pay / Gpay / Garmin Pay virtual wallets: the growth indicators were clearly higher than in 2023, both in terms of the number of transactions (increase of over 77%) as well as in terms of the value of transactions where increases of over 118% were recorded.

Transaction volumes in the activity of accepting

payment by card through physical, virtual POS and SNEP, recorded increases of more than 70% in 2024 vs 2023.

As at 31 December 2024, the Bank had an equipment network formed of 1 188 ATMs and 225 MFMs, out of which 1 005 installed in branches /own agencies and 408 installed off-site. The network of physical and virtual terminals (POS) for card acceptance comprises 1 029 physical POS installed at the bank's own counters and 36 704 terminals installed at physical and virtual merchants for card payment acceptance, up by 54% compared to 31.12.2023.

Projects/initiatives/card mandates implemented in 2024:

- The possibility of issuing virtual cards also for all types of existing credit cards in the bank's portfolio. Thus, any customer who has an active main physical card can issue their virtual card directly from Mobile Banking – CEC App and use it immediately. The virtual card is active from the beginning, without trips to the bank or ATM.

The virtual card can be used for payments at the POS, after enrolling the card in a payment application (Google Wallet or Apple Pay), for online payments, using the card data available in the application or for contactless cash withdrawals from ATMs and the Bank's MMFs but also from the equipment of other banks that allow this type of contactless operation.

- By December 31, 2024, the installation and, respectively, replacement of ATM equipment with state-of-the-art ATM/MFM equipment was completed, as part of the multi-annual program to modernize the ATM and multifunctional machine infrastructure.

- Contactless functionality at ATMs and multifunction machines in the bank's network, introduced from September 2022, (cash withdrawals from the card and other operations from the bank's ATMs without the need to insert the card into the slot or directly with the phone, smart watch or other devices contactless) was extended to all last generation equipment

- Product/service optimizations for individual customers: For operations performed abroad, using the Visa Multicurrency card, the Bank implemented the extension of the simultaneous verification of the available balance when authorizing a card transaction from 3 main accounts, respectively RON, Euro or USD, compared to a single main account

CEC Bank, Posta Romana and Visa – partnership in the field of digital payments. The project consists of implementing the Soft POS/Tap to Phone Visa

application on 7,000 smart mobile terminals of the PDA (Personal Digital Assistant) type that postal employees throughout Romania are equipped with, so that payments become simpler and more accessible even in rural or less developed areas of the country. The Visa Tap to Phone application transforms a smartphone or a PDA device into a POS terminal, facilitating the fast and efficient processing of card payments. Thus, through mobile devices, postmen will be able to collect utility bills, postal taxes and other payments directly at the customers' homes.

- Contracts were concluded for the acceptance of payment cards issued by Romanian and foreign banks under the Visa and Mastercard logos with companies/institutions/state-owned companies, following organized procurement procedures, such as: Fiscal Department Brasov, The Romanian Post – Treasury Program

- Projects were started to automate flows in the segments of transaction reconciliation, customer complaints and card acceptance at merchants;

- An advanced module for preventing, alerting and blocking transactions to combat card fraud was implemented and tested at the processor level. At the same time, it was agreed with the Visa organization to access a specific risk module owned by Visa, which allows parameterization with our own anti-fraud rules, according to the casuistry encountered, in addition to those of best practices at international level for prevention, alerting and blocking of card transactions.

- RoPay service, instant payment scheme, through Transfond, directly from the account, as an alternative to the card payment scheme – involvement for support in the development of payments to merchants. In 2024 it was launched for instant collections/payments from the account between individuals by scanning a QR code through the Mobile Banking CEC app. Payments/receipts can be made both between CEC Bank clients and between CEC Bank clients and other banks participating in this payment service.

- On the Romanian Lottery's online platform was implemented, for the first time, the payout solution (payment of prizes by card).

d) Actions carried out for digitization of products and services

For Internet Banking

In 2024, the transactions number carried out

through Internet Banking increased up to 5,311,771 operations, registering an increase of 26.77% comparing to 2023. The operations value carried out through Internet Banking during 2024 exceeded the value of approx. 163.86 billion RON. The total number of Internet Banking customers increased by 46.23% and reached a pick of 210,685 customers in 2024.

On the Internet Banking application for Individuals, in 2024 there were added new facilities with a major impact on customers, such as:

- Displaying a pop-up message immediately after login through, on which the customer receives various information, including marketing information;
- Vignettes for Hungry and Fetesti bridge fees payments;
- Aggregate Financial Situation display for the client, including the possibility of listing (data export in different formats, such as PDF, CSV, XLS);
- Liquidation/ closing foreign currency accounts and sub-accounts;
- Hide/ show accounts in the "Account picker" section;
- The possibility to cancel a transaction within a future date, by the customer/client himself;
- Extension of the transactions list, from 1 year, up to 2 years;
- Loan closing Confirmation Letter display and listing;
- Account Letter generator.

For Mobile Banking:

In 2024, the number of transactions carried out through Mobile Banking increased to 11,849,983 operations, registering a 46% growth compared to 2023. The value of operations carried out through Mobile Banking during 2024 increased by 45%, reaching approximately 53 billion lei. The total number of Mobile Banking customers recorded a 34% increase, reaching 706,355 customers in 2024.

Several impactful functionalities were added to the Mobile Banking platform in 2024, including:

- The RoPay instant payment service with a mobile phone via QR code;
- Scanning of Debit Instruments within the application;

| Report of the Board of Directors 2024

- Integration of an additional security solution (App Protector);
- Application redesign, including Dark mode;
- Direct Debit;
- Implementation of an additional security measure by sending notifications (SMS, email) for each application reactivation;
- Biometric authorization of transactions;
- Purchase of road vignettes and payment of the Fetesti - Cernavoda bridge toll (PEAJ);
- Account statement generation.

For Phone Banking:

The number of active customers in Phone Banking in 2024 reached the threshold of 19,449 customers at the end of the year.

In parallel with the provision of voice-based transactional activity, Phone Banking services were extended to the area of sale of loans with card access, loans for personal needs and refinancing of consumer loans. Thus, in the year 2024, through Phone Banking they were sold:

- 909 credit/overdraft cards worth approx. RON 27 375 186;
- 777 loans for personal needs and consumer credit refinancing, in the amount of RON 27 898 641;

For eShop CEC_IN - the Bank Virtual Store

The development and improvement process of the CEC_IN Marketplace continued in 2024 with the launch through the Online Onboarding and Product Origination platforms of new current

account packages and which are available to both customers on the bank's website, in the eShop CEC_IN, as well as the teams in direct contact with customers at the level of territorial units, as follows:

- "Grija Completa" – the Onboarding Flow dedicated to new customers is available starting May 2024 to the teams in direct contacts with the customers at the level of territorial units –FSU (Flow Short Units);
- StudentFree Package Flow – the new Onboarding flow dedicated to young people up to 24 years old, is available starting August 2024 to the teams in direct contact with customers at the level of territorial units - FSU (Flow Short Units);
- Assisted digital flow - MVP1, carried out at the client's headquarters, in order to quickly open current account packages for customers who have agreements with the Bank, allows the enrollment of clients at the headquarters on a 100% online digital flow, with validation by a validator from the level of territorial units. It is a new stream launched in May 2024 which was well received by units and customers;
- Pension Package Flow - the new Onboarding flow is available in CEC_In starting December 2024.
- Cloud migration of the early repayment flow, online lending flows, the refinancing flow from CEC_In, was launched in production in June 2024;
- During 2024, more than 136,000 customers acquired current account packages and services through online flows and FSU (Flow Short Units);

Onboarding & Data Updates Evolution (CEC_IN+FSU) 2020-2024

Since the launch of online lending flows, 50,793 online lending products worth approximately 1,233,245,000 have been granted through CEC_IN eShop, MB/IB applications and through the short flows available at the unit level.

During 2024, there is a significant increase of approximately 2.8 times in the number of lending products granted through digital platforms, compared to the previous year.

The following graphs show the distribution of lending products granted online according to the number of products and their volume, but also the evolution of the number of products granted through the Product Origination platform during 2024 compared to previous years.

Evolution of credit products granted online 2021-2024

Share of credit products granted through digital platforms

Share of volumes of credit products granted through digital platforms

For Legal entities, two types of current account packages are available on the Bank's website that can be accessed fully online: IMM Optim and Start-Up Locals.

Since the launch of online flow, a number of 227 current account packages addressed to legal entities were opened, as follows:

- 154 Optim SME Packages
- 73 start-up packages Locals

8. Units network

8.1 Evolution of the Bank network during year 2024

At the end of 2024, the Bank operated through its headquarters located in Bucharest, as well as through its 48 county branches and similar units in Bucharest, 116 urban agencies of type A, 386 urban agencies of type B, and 460 rural agencies of type B. The total number of units as of December 31, 2024, was 1,011 units, compared to 1,013 on December 31, 2023.

Thus, the Bank maintained its position in the system as the bank with the most extensive network of territorial units (of which 460 units are located in rural areas).

The evolution of the network of units over the past 3 years is as follows:

In 2024, the plan for modernizing territorial units continued, through the implementation of new concepts, both in existing units and in new locations. Thus, 10 projects were completed:

- 7 relocations: Sibiu Branch, Podu Ros Agency (Campus Palas Iași) – Iași Branch, Nr. 1 Progresul Agency – Brăila Branch, Odorheiu Secuiesc Agency – Miercurea Ciuc Branch, Calea Baciului Agency – Cluj Branch, Bucurestii Noi Agency – Gara de Nord Branch, Colentina Agency – Piata Alba Iulia Branch;
- 3 renovations in existing locations: Ștefan cel Mare Agency – Lipsani Branch, Pantelimon Agency – Piata Alba Iulia Branch, Theodor Pallady Agency – Al. Obregia Branch;
- 1 Mortgage Shop concept within the Theodor Pallady Agency.

In the newly arranged units, Self Banking zones were integrated – 24/7, with a significant impact on improving customer satisfaction by reducing wait times at counters, providing 24/7 availability, reducing costs, and ensuring accessibility and security through dedicated, convenient spaces. For the 24 Banking zones created as part of the modernization concepts, the process of equipping with new-generation multifunctional devices with new business functionalities continued, ensuring Omnichannel experiences for customers.

By the end of 2024, the following were operational:

| Report of the Board of Directors 2024

- 4 Mortgage Shop units: 2 in Bucharest, 1 in Cluj (in Dej), and 1 in Timisoara.
- The Mortgage Shop concept is aimed at individual customers seeking financing solutions for purchasing, modernizing, and building homes. The implementation of the "Mortgage Shop" concept is part of the omnichannel approach, through which we aim to establish high service standards for our customers.
- 5 Cashless units within the Iași Branch, both in urban and rural environments. The Cashless concept involves a hybrid approach and aims to ensure territorial availability, offering complex solutions, and educating/encouraging customers to use digital products and services.

8.2. Measures to streamline activity at the level of the Bank network adopted in year 2024

In 2024, a series of transformation projects were continued or launched with the aim of improving the efficiency of certain activities carried out at the territorial network level. Among these, the following projects had a significant impact on the network's operations, grouped by category based on their purpose:

8.2.1. Business growth:

- The implementation of the Enterprise CRM (Customer Relationship Management) solution continued, aimed at managing customer relationships efficiently, with a focus on attracting, retaining, and fostering customer loyalty. The CRM project supported the business growth pillar through MVP1.0 (the intermediate solution developed on existing platforms) with the following results achieved in 2024:
 - 8 national campaigns launched across the network, focused on: personal financing and cross-selling, onboarding and business crediting, salary agreements, partnerships, with a total of over 116,100 customers loaded and proactively approached for the acquisition of products and services.
 - Implementation of opportunity flows for all sales actions carried out within the network and their monitoring.
- The CRM solution consists of 14 modules: Unified Customer 360 View, Customer Data and Management Module, Lead and Opportunity Management, Request/Complaint Management, Customer Segmentation, Sales Efficiency, Workforce Efficiency, Campaign Management, Customer Feedback Capture Module, Monitoring of Customer Activity and Interactions, Communication Module with Customers, Business-Specific Reports (e.g., campaigns, sales), Dashboards, Partner Management Module, and Advanced Data Analytics Module. This solution will be implemented in phases, with 3 releases scheduled for the 2025-2026 period.
- New functionalities and products were implemented within existing digital platforms (FSU, ML), including:
 - FSU (Short Unit Flow): External refinancing, Complete Care Package, Student Free Package, expansion of validator roles.
 - Assisted Remote Flow Version MVP1, with validation and confirmation at the territorial unit level.
 - Mortgage Loan Platform: Centralized mortgage credit approval at the Bank's Headquarters, allocation mechanism for personal credit applications to analysts at Headquarters, new income considerations, implementation of regulatory requirements, etc.
- The adoption of digital solutions for individual customers (PF) within the network was significantly accelerated, with the following results in 2024:
 - Adoption rate for FSU Digital Flow Current Account Packages: 62% of total products sold within the network.
 - Adoption rate for FSU Digital Flow Unsecured Loans: 54% of total products sold within the network.
 - Adoption rate for ML Digital Flow Mortgage Loans: 44% of total products sold within the network.
- The use of the Aurachan PJ IMM Lending Platform was extended to all 46 Type A branches.

- The Redesign of Legal Entity Lending Project was developed and operationalized; presentation and training sessions were organized for all roles involved in the lending process within the network and at the bank's headquarters.
- The Pricing Tool template was updated; presentation and training sessions were organized for all roles involved in the lending process within the network and at the bank's headquarters.
- A semi-automated tool was developed, used for managing/obtaining ROE approvals for legal entities.
- Portfolio management and growth tools were developed in the area of salary agreements:
 - Reflecting both lending offers and operational offers approved for the entire portfolio of salary agreements concluded at the bank level in the QBG application;
 - Weekly updating of the salary agreement portfolio, sourced from the bank's systems;
 - Generating reports with new salary agreements signed during the month;
 - Optimizing the salary feed process via IB (prioritizing Treasury collections to salary accounts, prioritizing intra-bank collections to salary accounts, processing file imports based on the time of registration);
 - Developing a SharePoint application for scheduling and monitoring mobile offices: 4,173 mobile offices were organized, directly impacting the increase in the number of accounts funded through active salary transfer agreements.

8.2.2. Operational excellence

- Continuation of automation processes related to the submission of registration/modification/extension/removal requests in/from the National Register of Movable Publicity through the implementation of the registration/extension/removal module directly within the Regmaster application.
- Optimization of reports regarding the removal of mobile mortgage notices in the RNPM by expanding the range of products (credit card, OVD, SGB).
- Implementation of a specific flow dedicated to approving the continuation of business relationships with individual and legal entity clients, with appropriate marking in core banking for these actions, as well as the implementation of analysis for all requests through Jira. This flow ensures traceability, ease of document attachment, auditing, etc.
- Development of specific verification flows and tools for checking the Register of Real Beneficiaries and ONRC, useful in the processes of initiating and continuing business relationships with legal entity clients.
- Development of a system within core banking to alert operators in territorial units about mandatory information to be collected for enrolling a client.
- Implementation of security checks (OTP code for email/phone validation).
- Definition, development, and implementation of a specific centralized notification flow for individual and legal entity clients with outdated data.
- Optimization of robots implemented within the Bank, particularly optimizing the verification of legal entity clients at CRC and PortalJust, impacting the legal entity crediting process.
- Optimization of the querying and verification process of reports used at the territorial units in the network (Paperless Project). In collaboration with DAOEC, DART started a pilot in 8 units, with plans for expansion to the entire network.
- Continuation of the project to optimize existing processes:
 - Branches processes catalog was fully designed and first layer of prioritization performed.
 - Half of 15 selected processes already mapped end to end (including activities in other areas than branches) for deep analyzing.
 - Surveys together with live interviews were performed.
- Implementation of the ID Scanning Project in 901 units for customer identification through scanning and verification of identity documents, as well as data processing and storage in the bank's systems.
- Successful completion of the optimization and enhancement of the Capone software – the debt collection platform, a project carried out in collaboration with DART and DAVA. This initiative aimed to optimize the debt collection process, from early collection and recovery stages to debt sale. The

Capone Platform was also integrated with applications from three third-party providers for call center services, SMS/email transmission, and postal notifications.

■ The implementation of the integrated call center solution with the Capone Debt Collection Platform led to a significant increase in the efficiency of debt collection activities in the Soft Collection area. The number of calls made to contacted overdue clients increased from 477,000 calls in 2023 to 650,000 calls in 2024. Additionally, amounts collected from fulfilled payment promises saw a positive increase, rising from 340,000,000 RON in 2023 to 1,015,000,000 RON in 2024.

8.2.3. Customer experience and financial inclusion:

- Optimization of RPA (Robotic Process Automation) in the process of renewing residential mortgage insurance policies for individual clients led to a significant increase in the volume of policies issued in 2024. This optimization allowed for the automation of the policy renewal process, resulting in a 50% increase in the number of policies issued: from 1,980 policies for 945 clients in 2023, to 4,056 policies for 2,028 clients in 2024. This growth demonstrates the efficiency of RPA implementation in optimizing operational processes, leading to higher commission income and improved customer experience by reducing processing time and eliminating human errors. Noteworthy is also the evolution of the number of policies issued by the debt collection officers within the Debt Recovery and Collection Service (SPCR) from DART on the standard flow: 22,849 in 2024 for 11,425 clients. The total revenue from policy renewals conducted by SPCR reached 1,187,427 RON in 2024.
- Development of new business functionalities on ATM/MFM devices, ensuring an omnichannel experience for customers.
- Continuation of the territorial network optimization plan: modernization, equipment, and implementation of new concepts.
- Implementation of new functionalities in Mobile Banking, enabling legal entity clients to submit instruments for collection through this application.
- Development within core banking of a specific mechanism allowing differentiated taxation of interest for individual clients, based on their tax residency.
- Expansion of the use of the Aurachain Platform for the registration of legal entity clients to 16 branches and affiliated units.
- Implementation of RoPay project (Instant Payment via Mobile Phone) for the P2B component.
- Developments within core banking to obtain tax certificates and NIFs for non-resident clients requiring these documents.

8.2.4. Performance culture:

- In 2024, the Variable Pay Scheme was implemented, a system for recognizing the performance of employees in the Front Office, which was operational starting in Q2. A total of 2,934 colleagues in the network were awarded bonuses for the results achieved during the last three quarters of 2024. The implementation of the recognition system involved: the application methodology, technical tools to ensure efficient execution of the entire process of data extraction, qualitative validation, and data processing.
- A new reward and bonus system was implemented for employees in the territorial network (both front office and back office roles), developed in partnership with Autonom Services.
- The training program for the territorial network continued in line with the bank's strategic objectives regarding customer experience, adoption of digital workflows, process optimization, sales techniques, and customer care, as well as management training.

In the 2024 Network Training Plan, a total of 19,631 participants were registered, as follows:

- 13,000 participants – digitalization programs and hard-skills development (FSU_Personal loan refinancing from other banks, ID Scanning & Qbank, Centralized PF analysis – Application Workflow, Specialized credit analysis applications AAPL, Updates on Mobile Banking & Internet Banking for Legal Entities, Specialized credit products – European Funds and Government Programs - INVEST EU, PF Card Training, PF Credit Training, New PJ Credit Flow - PJ Credit

| Report of the Board of Directors **2024**

- Redesign & Documentation, Stand Alone Insurance Products Workshop);
- o 800 participants – Sales Skills and Behavioral Modeling (Managers and MRCB);
- o 433 participants – Induction Module for new employees;
- o 258 participants – Customer Experience courses (with Trend license);
- o 256 participants – Initial insurance training and certification;
- o 4,884 participants – e-learning courses (other than mandatory).
- Commercial animation activities for the territorial network:
 - o CEC Heroes Initiative – interviews with the top 12 performing employees within the network;
 - o Leasing Operational Campaign Contest (5 winners);
 - o Attracting Visible Sources Contest (48 winners);
 - o Establishment and implementation of recurring commercial action plans: sales steering with local teams, mobile offices, etc.

9. Exposure of the Bank to significant risks

In order to conduct prudent banking, according to the Risk Management Policy and the risk profile of CEC BANK S.A., the Bank has sought to fit into an overall medium risk profile, given that it operates in an economic environment lacking medium and long-term predictability.

The assessment of the level of risk recorded for each of the significant risks was achieved on the basis of the overall risk profile monitoring matrix set out in the Risk Management Policy and the risk profile of the Bank resulting in the classification as at 31.12.2024 in a general moderate risk profile*.

*According to the matrix regulated within the risk and profile management Policy of the Bank for the period 2024-2026, the assessment of significant risks at individual level leads to the association of an overall low, moderate, medium or high level of risk.

At the same time, the Bank has continuously complied with the regulated limits in the capital adequacy and liquidity assessment process.

The Bank continues to maintain a level of total own funds ratio above the overall capital requirement, proving its ability and commitment to support the growth of financial intermediation for natural persons and legal persons customers, further strengthening its ability to generate income from core activities.

The total equity ratio recorded as of 31.12.2024 a level of 26.65% above the total capital requirements of the National Bank of Romania within the SREP (Supervisory, Review and Evaluation Process) and above the global capital requirement-OCR, which also includes capital buffers. The bank has complied as at 31.12.2024 with the interim capital and eligible liabilities requirement set by the Resolution Authority.

In order to counteract the negative effects of macroeconomic developments, the Bank continuously adjusts its risk and capital policies, and its shareholder supports it to ensure compliance with all regulatory requirements, to fit the overall risk profile and to ensure capital and liquidity adequacy to the risks it faces.

Risk management policies and systems are reviewed periodically to reflect changes in market and the modifications to products and services offered by the Bank.

The principles supporting the significant risk management basis are:

- compliance with the risk limits established under the risk policies for the significant risk categories assumed by the Bank.
- identification, assessment, follow-up and control of risks according to specific rules and policies.
- maintaining a reporting system appropriate to risk exposures, i.e. the thresholds at which a risk is considered significant.
- maintaining appropriate risk exposure limits in line with the size, complexity and financial situation of the Bank.
- appropriate segregation of duties within the significant risk management process to avoid potential conflicts of interest.
- continuous monitoring of compliance with the procedures established for significant risks and operational resolution of identified deficiencies.
- regular review of significant risk management strategies and policies (at least annually).

a) Exposure to credit risk

Taking into account that lending activity holds an important weight of the Bank's business, an effective credit risk management system generates positive effects for both the Bank and its customers.

The Bank is exposed to credit risk mainly as a result of the lending activity as well as other transactions from which the Bank recognizes financial assets.

Through the risk profile, the Bank sets exposure limits by counterparty type, economic sector, customer category, geographic area, product, currency, loan term, estimated portfolio profitability, in order to promote certain loan categories.

The Bank assesses the classification within the assumed credit risk profile according to the assumed credit risk appetite. The level of risk is quantified based on a scoring system of key credit risk indicators according to their recorded values.

In order to carry out a prudent activity, characterized by continuous monitoring and control of the level of risk related to the credit risk appetite, the Bank has aimed at an assumed medium credit risk profile, using an internal credit risk assessment system for the loan portfolio. As at 31.12.2024, the Bank has a moderate credit risk profile.

The risk appetite is the Bank's maximum capacity to assume balance sheet and off-balance sheet commitments over a period of time, determined related to:

- the level of current and forecasted own funds.
- the structure and level of existing and projected resources and investments.
- the level of estimated profit to achieve.

The credit risk appetite the Bank assumed is that one corresponding to an average risk profile.

The Bank has credit risk monitoring tools in place at portfolio level, continuously monitoring:

- assets quality ratios.
- risk capital adequacy ratios.
- credit risk concentration ratios.
- large exposures to a customer or to a "group of connected customers".
- information on significant issues and developments that could influence the credit risk profile.
- simulations and crisis scenarios impacting the portfolio.
- a continuous process of collateral and residual risk assessment with effects on risk coverage.
- identification and management of problem assets as an ongoing process within credit risk management, carried out according to specific internal regulations.

b) Exposure to market risk

Market risk is the current or future risk of incurring losses corresponding to balance sheet and off-balance sheet positions due to adverse market fluctuations in prices, such as equity prices, interest rates and foreign exchange rates.

The market risk management policy mainly addresses the major components of market risk, namely:

- price risk - the risk of recording significant losses from the sale of the government bonds portfolio (FVTOCI);
- foreign currency risk represented by the risk of recording significant losses due to changes in exchange rates.

The Bank evaluates the market risk through elements that define it, respectively: the share in total placements of government bonds, the volume of loans granted to non-bank customers, the volume of operations in foreign currencies, the important position that the Bank holds on the market of attracting cash from the population, corroborated with the analysis of exogenous and endogenous factors.

To assess the market risk, starting with April 2022, the Bank holds activities specific to a small size trading book and positions held with the intention of trading represented by short-term resale positions and/or with the intention of benefiting from actual or expected short-term differences between buying and selling prices, or from other price or rate movements interest (Romanian government securities).

The market risk exposure follow-up aims to achieve a portfolio with low sensitivity to the variation in the prices of government securities, the variation in VaR corresponding to the currency portfolio and the exchange rate and the achievement of the objectives established by the risk profile. These are mainly achieved by monitoring the price of government securities on the market as an indicator for price risk, as well as by determining and monitoring the VaR indicator and the Bank's currency position, as indicators of currency risk.

The implementation of the policy and the achievement of the goals regarding the management of market risk is achieved through the permanent monitoring and follow-up of:

- The key indicators underlying the determination of the risk profile, respectively "The level of the hypothetical loss that would result from the immediate sale of the portfolio of government securities included in the category of financial assets valued at fair value through other elements of comprehensive income", for the price risk and the "Total net foreign exchange position" indicator, for foreign exchange risk;
- Level II indicators, monitored daily, namely government securities trading book item for the price risk and the ratios corresponding to the foreign currency risk represented by the individual net foreign exchange position and the indicator for measuring the risk related to the currency portfolio - the Value at Risk (VaR) methodology.

By monitoring the price risk, the Bank seeks permanently to achieve a low level of the hypothetical loss that would be recorded in case of an immediate sale of the securities portfolio classified within the category "financial assets at fair value through other comprehensive income", and from the foreign currency risk point of view, the Bank seeks to achieve an optimal portfolio correlated between the value of assets and liabilities expressed in foreign currency, and balance between long and short net open positions so that both the impact exchange rate volatility, as well as the maximum loss likely to be recorded to be minimal.

Also, in order to measure the risk related to the foreign currency portfolio, part of the market risk evaluation, the Bank has internal procedures and the VaR (Value at Risk) methodology, by which it follows the inclusion of the maximum loss likely to be recorded on the total foreign currency portfolio, over a certain period of time (h) and with a certain level of reliability.

To prevent the situations of non-compliance with internal market risk limits, the Bank carries out stress scenarios.

Through its risk management policy and risk profile, the Bank aimed during 2024 to classify within a medium market risk profile, profile that has been fulfilled over the year.

c) Interest rate risk outside the trading portfolio

Interest rate risk is the current or future risk of adverse effects on profits and capital due to the adverse changes in interest rates.

According to the interest rate Risk Management Policy and Risk Profile, the Bank aims to optimize the gap between assets and liabilities sensitive to interest rate variations, both in total and overdue dates range, so that the impact of interest rate variations on net interest income is as small as possible, resulting in the risk profile assumed.

The Bank seeks an adequate management of interest assets and liabilities, corroborated with actions to promote existing products in the Bank's portfolio, as well as the launch of new products, both on the asset and liability side (for example: bonds issued with fixed interest rate), in order to create a portfolio with low sensitivity to interest rate variations and to achieve the targets set by the risk profile.

In order to assess the interest rate risk, starting from April 2022, the Bank develops activities specific to a small trading portfolio, within a total maximum position limit of RON 200 million equivalent, available for Romanian government securities, corroborated with the re-acquisition of the status of primary dealer in government securities from May 2022, meaning that the Bank holds positions with the intention of trading or for the purpose of hedging positions held with the intention of trading. The interest rate risk is identified, quantified, monitored, managed and reported in all the bank's activities that involve potential variations in interest rates at banking book level (for activities outside the trading portfolio).

Compliance with the risk profile assumed for the interest rate risk is managed through the levels established for the key indicators based on the risk appetite that the Bank assumes with the aim of continuing business on a prudent and sound basis.

The levels accepted by the Bank for the key indicators, as well as the ranges considered for their evaluation, were established taking into account the Bank's strategy regarding interest rate risk, assessed as significant risk, correlated with the limits imposed by the NBR/EBA regulations, with the historical evolution of the values of these indicators, the size and structure of the assets and liabilities taken into account when determining them, the results obtained following the various forecasts made, budget provisions, etc.

The Bank evaluates the classification within the assumed interest rate risk profile according to interest rate risk appetite; the level of risk is quantified based on a scoring system of the key indicators related to the interest rate risk according to the levels recorded by them and the weights assigned according to the importance of the indicators based on historical analysis and professional expertise.

Also, to prevent situations of non-compliance with internal and regulated limitations, the Bank monitors the dynamic evolution of assets and liabilities sensitive to interest rate variations and performs simulations, forecasts, prognosis, "stress testing" scenarios, etc.

Through the risk management and risk profile policy, to carry out a prudent activity, characterized by the permanent monitoring and control of the level of key indicators for interest rate risk in relation to risk appetite, the Bank seeks in 2024 to comply with a medium interest rate risk profile, profile which has been observed all months during 2024.

d) Exposure to liquidity risk

Liquidity risk expresses the current or future risk of negative impact on profits and capital, determined by the Bank's inability to fulfill its obligations when they are due, having as potential causes: insufficient liquid assets, the Bank's inability to liquidate assets, the inability to obtain adequate financing.

The Bank has adequate liquidity potential when it can obtain the necessary funds (by attracting additional sources, selling assets, participating in REPO in counterparty with other banks, auctions organized by the NBR etc.) immediately and at a reasonable cost, which does not affect the Bank's profitability.

The identification of liquidity risk, and therefore the Bank's exposure to risk, is carried out through knowledge of the structure of funds attracted and invested in order to ensure a higher quality of net fund flow forecasts, knowledge of the behavioral characteristics of the Bank's customers, assessment of liquidity needs in the short, medium and long term, according to seasonal factors, large customer operations, volatility of deposits and loans, and identification of liquidity generating and liquidity consuming items.

The liquidity risk management policy is part of a solid and specific framework for liquidity risk management, including the process of identification, evaluation/quantification, monitoring, mitigation and control, by which the Bank aims to achieve mainly a balanced portfolio of the Bank's assets and liabilities, which ensure optimal liquidity.

The Bank aims an adequate management of assets and liabilities, leading to the maintenance of sufficient liquidity, including the liquidity reserve (available liquidity, which covers the Bank's additional liquidity needs that may arise over a defined short time horizon - two weeks - in crisis/unforeseen circumstances), correlated with proposals for new products, services, contracts to which the Bank is a party, internal regulations, or significant change to the characteristics of existing products, before being submitted for endorsement/approval according to the powers, with a view to assessing the liquidity risk they may generate.

The implementation of the Policy and the achievement of the liquidity risk objectives are achieved, mainly and without limitation, through the monitoring and permanent follow-up of the risk limitations of key indicators (liquidity and

financing indicators) for managing the liquidity risk that support the determination of the liquidity risk profile and level II indicators – early warning indicators.

Through the liquidity risk and liquidity risk management policy, to carry out a prudential activity, characterized by the permanent monitoring and control of the level of key indicators for liquidity risk in relation to risk appetite, the Bank seeks in 2024 to comply with a medium liquidity risk profile, profile observed all months during 2024.

The Bank also issued the "Policy regarding the Internal Liquidity Adequacy Assessment Process" (ILAAP) that seeks to integrate into the general practice of liquidity management at least the following: the liquidity planning process, maintaining an adequate level of liquidity to cover certain risks to which the Bank is likely to be subject, monitoring specific liquidity risk indicators, identifying vulnerabilities and evaluating potential dangers in a timely manner, corroborated with permanent actions to prevent to such situations, the process of obtaining conclusions and making decisions, including in crisis conditions.

For the purposes of the Bank's internal risk liquidity adequacy assessment process, the Bank considers mainly the following: risks not covered by liquidity requirements, including intraday liquidity risk and liquidity risk for longer than 30 days; concentrations on important balance sheet/off-balance sheet lines; funding gaps in short, medium and long-term due dates range; possibilities to hedge funding gaps in different currencies; results of crisis simulations, etc. The specific ILAAP framework is represented by information regarding liquidity and funding risk management framework; funding strategy; liquidity reserves strategy and collateral management; cost and benefit allocation mechanism; intraday liquidity risk management; liquidity crisis testing and liquidity contingency plan.

According to the provisions of the NBR Regulation no. 5/2013 on the prudential requirements for credit institutions, the Bank issues the Internal Capital Adequacy Assessment Process (ICAAP) and Internal Liquidity Adequacy Assessment Process (ILAAP) within the Bank every year/quarter, document facilitating the supervisory assessment of the soundness, effectiveness and comprehensiveness of the ICAAP and ILAAP processes.

e) Exposure to operational risk

Operational risk is the risk of loss resulting either from the use of inadequate or failed processes, internal systems and human resources, or from external events and actions. Operational risk also includes legal risk, information and communication technology (ICT) and security risk, model risk and behavior risk.

The Bank aims to establish an operational risk management framework by creating policies and processes to identify, assess/quantify, monitor, control/mitigate and report operational risk, with a view to ensuring the prevention of conflict of interest by separating the operational and monitoring tasks.

The operational risk management policy establishes the general requirements for the development of the bank's internal procedures and how to fit the risk profile, while ensuring the continuity of business on a sound and prudent basis.

The operational risk management process takes into account the classification of operational risk incidents into the following categories of operational risk events:

- internal fraud.
- external fraud.
- occupational safety and employment policies.
- customers, products and commercial practices.
- damage to tangible assets.
- business interruption and malfunction of systems.
- process execution, delivery and management.

Operational risk is identified and assessed for each existing and newly introduced banking activity, product and service at the level of each Bank unit.

In order to monitor operational risk, the Bank has established in its internal regulations a set of operational risk indicators (KRI) - backward-looking and forward-looking type instruments.

The Bank assesses on a quarterly basis the classification within the operational risk profile according to the assumed credit risk appetite. The level of risk is quantified based on a scoring system

of key credit risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

In 2024, the indicators related to operational risk were monitored (key indicators and level II indicators), the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations.

The risk management policy and risk profile of the Bank for the year 2024 has established that the operational risk appetite that the Bank is willing to assume is that corresponding to a medium risk profile.

During 2024, the Bank has a moderate operational risk profile, with no risk exceeding the level of risk allowed for the established risk profile - medium.

f) Exposure to reputational risk

Reputational risk is the current or future risk of negative impact on profits and own funds, or liquidity caused by damage to the reputation of the credit institution.

The strategy of the Bank is meant to maintain and increase the Bank's reputation.

In order to reduce the reputational risk, the Bank has in mind, mainly and without limitation, a prevention policy regarding the occurrence of fraud risk, permanent updating of internal regulations regarding the standards and actions to be followed in the activity of knowing customers, politically exposed persons, prevention of money laundering and terrorism financing, timely resolution of complaints/petitions made by some customers of the Bank, etc.

The reduction of reputational risk is mainly achieved through preventive measures regarding internal and external fraud, protection of personal data of customers, permanent update of the Bank's regulations, monitoring of the volume of petitions/complaints, conducting an appropriate communication policy, adequate promotion of the Bank's image, as well as by measuring/monitoring a potential impact on the evolution of the attracted sources of the Bank, following the occurrence of a significant reputational risk event.

The Bank assesses on a quarterly basis the classification within the reputational risk profile according to the assumed reputational risk appetite. The level of risk is quantified based on a scoring system of key reputational risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

In 2024, the indicators related to reputational risk were monitored, (key indicators and level II indicators) the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations, the Bank falling within the low reputational risk profile, the reputational risk appetite that the Bank is willing to assume being that corresponding to a moderate risk profile.

g) Exposure to strategic risk

The strategic risk represents the actual or future risk of negative impact on profits and capital determined by business environment changes or by unfavorable business decisions, by the non-corresponding implementation of decisions or the lack of reaction to changes in the business environment.

The factors that influence the apparition and development of strategic risk may be:

- internal factors: organizational structure, organizational culture (values, goals, expectations), resources (skills, knowledge, abilities - of leadership, management, employees) etc;
- external factors: technological changes (at the market and competition level), economic factors (global, regional or national, which may affect the level of profitability), regulatory framework (changes in normative acts, legislation in force, tax rules issued, etc.), changes in the political regime, natural disasters, terrorist attacks, etc.

Taking into account the predominantly uncontrollable and unquantifiable nature of strategic risk, especially that due to external factors, in order to limit the possible effects generated by its occurrence, in order to ensure adequate monitoring and to establish effective means of recovery, the Bank follows and ensures:

- the establishment of some rationale strategic goals;
- the adoption of a prudent policy;
- the continuous analysis of the market evolution related to budgeted activities;
- the implementation of an overall governance framework, including committees and approval authorities as well as clearly established flows, allowing for a rigorous process for decisions with potential strategic impact to be taken at the strategic level and subsequently implemented at the operational and tactical levels.

The Bank also analyzes and reviews regularly the business models in order to assess strategic and business risk and to ensure:

- the viability of the current business model from its capacity point of view to generate corresponding profit within a short period of time;
- the sustainability of the Bank's business strategy from its capacity point of view to generate corresponding profit within a longer period of time, according to the strategic plans and economic and financial estimates;

The strategic goals set out in the Bank's Business and Risk Strategy are translated and quantified through budgeted objectives set by the Bank. In this regard, progress for the achievement of the strategic goals established in the Business and Risk Strategy and their fulfilment can be followed using the key strategic risk indicators established, monitoring/following the degree of achievement of the budget targets presented in the annually approved income and expenditure budget.

In 2024, the indicators related to strategic risk were monitored (key indicators and level II indicators), the results recorded by the indicators showed that they classified within the rating levels/monitoring limits established by internal regulations.

The Bank assesses on a quarterly basis the classification within the strategic risk profile according to the assumed strategic risk appetite. The level of risk is quantified based on a scoring system of key reputational risk indicators according to their recorded values and the weight assigned to each indicator, depending on its importance.

During 2024 strategic risk fell into a low strategic risk profile, the strategic risk appetite that the Bank is willing to assume, as set out in the strategic risk management policy and strategic risk profile – integral part of the Bank's risk management policy and risk profile, being that corresponding to a moderate risk profile.

h) Exposure to risk associated to outsourced activities

Outsourcing an activity represents the use by the Bank of an external supplier in order to carry out, on a contractual basis and on an ongoing basis, activities that would normally be carried out by the Bank.

The Bank also accepts chain outsourcing, subcontracting being allowed only with the prior consent of the bank and under the same conditions as outsourcing to the main external supplier.

The risk management strategy for outsourced activities of the Bank is based on the policy of the Bank as regards the outsourcing of the Bank's activities and is implemented through internal regulations on the outsourcing process and associated risk management. In achieving its objectives and goals, the Bank identifies and implements, where appropriate, organizational changes leading to improved efficiency. The Bank will consider the possibility of outsourcing activities in cases where outsourcing leads to increased efficiency of the Bank's activities without prejudice to its core objectives, according to the Policy on outsourcing of activities within the Bank.

In order to manage the significant risks associated with the outsourcing of activities.

The bank has regulated outsourcing procedures that include the methods of selection and evaluation of external suppliers of goods and services, procedures for monitoring the way in which external suppliers of goods and services carry out the outsourced activities, alternative plans and the costs and resources necessary for changing the supplier.

In 2024, the indicators related to the risk associated with outsourced activities were monitored (key indicators and level II indicators) the results recorded by the indicators showing that they fell within the framework levels/monitoring limits established by internal regulations.

During year 2024, the Bank classified into a moderate profile of risks associated to outsourced activities. The appetite to risks associated to outsourced activities that the Bank is willing to assume according to the Risk Management and Risk Profile Policies for the period 2024-2026, being that corresponding to a moderate risk profile.

Capital adequacy

From the point of view of the impact of risks on the level of own funds, through the Policy on the Internal Capital Adequacy Assessment Process, the Bank seeks to establish in a consistent manner, related to the risk profile and the conditions in which the Bank operates (business environment), targets for the ratio between the level of internal capital (own funds) and the risks assumed.

Within the internal risk capital adequacy assessment process for 2023, the Bank has sought to have sufficient own funds within internal capital to cover both risks for which there are regulatory capital requirements (credit risk, settlement risk, credit value adjustment (CVA) risk, currency risk, adjustment risk operational risk), capital buffers and risks for

which regulatory capital requirements are not fully covered.

The Bank is subject to annual supervision and inspection actions by the Supervisory Directorate within the NBR, and in 2024 (during 01.04 - 30.09.2024) such an action was carried out, and the activity carried out by the Bank was verified from the date of the conclusion of the previous inspection action until 31.12. 2023 (with extension of the period for other dates, where appropriate), as well as other aspects (regarding the business model, the activity management framework and control procedures, capital risk, liquidity and financing risk, capital and liquidity adequacy, as well as the way the measures ordered by the NBR are implemented or established by the bank through remedial action plan).

10. Awards obtained by the Bank during year 2024

The Bank's involvement in supporting the business environment and the bank's efforts to consolidate and modernize have been publicly recognized through inclusion in the charts and awarding of prizes, among which we mention:

- CEC Bank received the jubilee diploma "ANEIR 30 years for the contribution to the development of Romania's international trade relations" offered in the cadet during the ANEIR Gala (February 19, 2024)
- The "WOMEN WHO CHANGE ROMANIA" award, obtained by Simona Andrei, Vice-President of the Management Committee of CEC Bank (Finmedia and "Piața Financiară" magazine, Tuesday, March 26, 2024)
- Two awards Best Performance IB 2023 and Best Performance MB 2023 ("Piața Financiară", Tuesday, March 26, 2024)
- 4 awards for CEC Bank lawyers: Business Partner Lawyer, Governance Lawyer, Litigator Lawyer and Workout Lawyer (Gala of the Association of Legal Advisors in the Banking Financial System, April 18, 2024)
- "Best performance in Internet Banking 2023" and "Best performance in Mobile Banking 2023" awards (Finmedia, April 23, 2024)
- 3 Awards in the TOP 100 most desired employers: "New Entry" in the Top 100, "One of the fastest climbers" and "One of the Top 100 most desired employers" (Catalyst Solutions, May 2024)
- 3 Awards at the Top Bankers Gala: Best dynamics of assets, Best dynamics of deposits and Best dynamics of loans (Piața Financiară" magazine, June 20, 2024)
- "CEC Bank, the strongest supporter of financial inclusion and digitalization in rural areas" award (Future Banking Gala, October 10, 2024)
- "Best Mobile Banking User Interface" award (ThinkBiz Gala - The Financial Leaders Awards 2024, October 22)
- Award in the Banks Category in the Top of the Most Appreciated Employers, 5th place, (undelucram.ro, November 2024)
- "Excellence Award for 160 years on the banking market" (Financial Intelligence Awards Gala, December 10, 2024 2023)

11. The evolution of the Bank's investments in 2024

The bank continued its modernization and transformation program at an accelerated pace. At the group level, the value of investments made in 2024 amounts to RON 244 million, up 38% compared to the previous year, of which over 80% are aimed at investments in IT systems.

Investment Plan - Group level (RON thousands, incl. VAT)	Group		Bank		2024 vs 2023	
					Group	Bank
	2024	2023	2024	2023	%	%
A. Information Technology Investments:	203,276	127,058	203,229	126,856	160%	160%
Current IT investments	154,561	92,053	154,532	91,850	168%	168%
Strategic IT investments	48,715	35,005	48,697	35,005	139%	139%
B. Logistics and Infrastructure Investments:	40,448	48,929	39,661	48,142	83%	82%
Investments in Banking Security	6,408	6,600	5,747	5,833	97%	99%
Logistics-Related Investments – Branches and Agencies works and equipment	21,518	32,473	21,392	32,454	66%	66%
Investments in Brand Image Enhancement	12,522	9,855	12,522	9,855	127%	127%
Total Investments	243,724	175,987	242,891	174,998	138%	139%

Within the Group, the highest values were recorded at the Bank level, respectively RON 243 million, up 39% compared to the previous year. An important share is still held by IT investments, where significant progress was made within the Transformation Program for the projects started in the previous periods:

- CRM: which aims to: improve business relations with customers, optimize processes, improve performance by increasing sales and customer loyalty;
- FIS Quantum: modern treasury platform for treasury activities and balance sheet management with new functionalities for the Bank's customers;
- ERP (SAP platform): updated financial-accounting platform
- Acquisition of the new Core Banking System, which will replace the current Core Banking with a modern and robust system, able to meet the Bank's development requirements;

Thus, IT investments have increased in 2024 by 39% compared to 2023, and special attention was paid to the strategic objective of implementing a new unitary "core banking" information system, which was also provided for in the Business Plan prepared for the period 2019-2023, as well as in the Investment Plan for 2024. This objective is strategic for the Bank, being the basis for diversifying the range of products and services offered to customers and increasing the degree of digitalization, with direct effect on increasing the efficiency of business processes and with a favorable impact on profitability.

According to the detailed project plan, the system deployment strategy aims to complete implementation by the end of Q1 2027. The plan includes a series of activities such as configuring the standard solution for a predefined set of products, procuring and installing the infrastructure for the new Core Banking System, testing and identifying necessary customizations for the selected products, identifying, mapping, extracting, and migrating data from the current systems to the new one, conducting a pilot phase for migrating a subset of the loan portfolio, and preparing for the incremental migration of the loan portfolio, among others.

12. Foreseeable development of the Bank in the coming period

In the year 2024, the Bank prepared the 2025-2028 Business Plan, as support in demonstrating the Prudent Private Investor Test in the market economy for the notification action by the Bank's Shareholder to the European Commission and obtaining the decision authorizing the increase of the share capital with the amount of RON 1 billion (the amount provided for this purpose in the State Budget law for the year 2024), in accordance with European legislation. Thus, the Bank developed a new business and risk strategy for the 2024-2028 period, which will be approved upon the completion of the Bank's capitalization process, subject to approval by the European Council.

For the year 2025, the Bank aims to continue the achievement of the current, basic objectives, foreseen in previous years, as well as in the 2025-2028 Business Plan regarding organic business growth and operational efficiency, respectively:

- the exploiting of the financial intermediation potential (increase in the balance of credits and sources attracted from non-bank clients, with an effect on the increase of total net assets and net profit)
- strengthening the market share and maintaining for the 3rd place in the top of the banks in the Romanian banking system
- continuing the process of implementing of a new core-banking type system, within the IT transformation and modernization program started in 2020, with particular emphasis on the digitization of products and services, still aiming to develop a hybrid business model, in which products and services to be available both online and through the physical network, on the segment of individual customers and on SME segment.

In addition, the Bank aims to achieve new strategic objectives, for which actions have already been started, such as:

- to intensively support the efforts of clients in the agribusiness area, seeking to make the most of the economic potential of the largest territorial banking network in Romania (with the largest territorial presence in the countryside) and government programs intended for the agri-food industry.
- to develop the CEC Bank Financial Group (Bank, FGCR, Insurance, and other types of companies), a process that began in July 2023 with the acquisition of the Rural Credit Guarantee Fund, in order to increase synergies in the Agribusiness area. The Group plans to enter the general insurance market, by establishing of an insurance company, and on the private insurance market, by establishing of a private pension fund. Also, during 2025 the Group wants to establish a payment institution.

In 2025 and beyond, the Bank will also focus on increasing operational efficiency through:

- optimization and simplifying of business processes, both in the network and in the Bank's headquarters
- the adoption of technology (no/low-code platforms, RPA, AI, chatbot, DMS, etc.), digitalization being a functional attribute necessary for streamlining the Bank's processes, optimizing costs and resources.
- continuing the gradual migration of all banking operations in the digital banking area and the development of services based on the multichannel banking principle.
- centralizing of certain operations from the territorial network to the headquarters and improving of the operational models of the departments by introducing new ways of coordinating and managing activities.
- continuing the segmentation of business lines: at the level of the internal reporting and allocation system of objectives, at the level of internal and product regulations and at the organizational level, in order to increase efficiency, the ability to manage the portfolio of activities and to improve capacity and ability communication with external customers.
- identifying opportunities for renting and selling surplus spaces

13. Corporate Governance

Corporate Governance in the Bank is a continuous process where integrity, accountability and transparency are fundamental elements in making the right decisions that contribute to increasing trust in the Bank.

Corporate governance is the set of rules and processes for making decisions related to the Bank's activity, aimed at providing strategic direction and ensuring that proposed objectives are achieved, i.e. ensuring that risks are properly managed and that the Bank's resources are used responsibly.

CEC BANK S.A. is a legal person under private law, organized as a joint stock company, the sole shareholder being the Romanian State. The Romanian State exercises the rights and assumes all obligations corresponding to the position of sole shareholder, through the Ministry of Public Finance.

As at 31 December 2024, the share capital of the Bank, fully subscribed and paid up, amounts to RON 2,290,661,600, and is divided into 22,906,616 registered shares, with a nominal value of RON 100/share, belonging in a percentage of 100% to the Romanian State.

Pursuant to art. 143 of Law no. 31/1990 on trading companies, the executive management of the Bank is supplied by the Steering Committee (SC), formed of 3 members, these ones being at the same time members of the Board of Directors (BoD).

The structure of the Steering Committee of the Bank S.A. as at 31 December 2024 is the following:

- Mr. Bogdan Constantin Neacșu, General Manager - Chairman;
- Mrs. Mirela Iovu, Manager - Vice-Chairman;
- Mrs. Simona Andrei, Manager - Vice-Chairman.

Pursuant to art. 15.1 of the Bank Statute, the Bank is governed, under a single-tier system, by a Board of Directors formed of 11 members, all natural persons. Unless the General Meeting of Shareholders resolves otherwise, each member of the Board of Directors is appointed for a 4-year term of office, with the possibility of being re-elected for additional terms of office.

The structure of the Board of Directors of the Bank S.A. as of December 31, 2024 is the following:

- Mr. Valentin Tiberiu Mavrodin, Chairman;
- Mr. Bogdan Constantin Neacșu, Member;
- Mr. Ciprian Sebastian Badea, Member;
- Mrs. Mirela Șitoiu, Member;
- Mr. Mihai Gogancea Vătășoiu, Member;
- Mrs. Mirela Iovu, Member;
- Mrs. Simona Andrei, Member.

During year 2024, 38 meetings of the Board of Directors were held, when materials of particular importance to the Bank's activity were discussed.

The structure of the Steering Committee of Fondului Roman de Garantare al Creditului Rural – IFN SA as at December 31, 2024 is the following:

- Mrs. Alina Mihaela Toma, General Manager;
- Mrs. Diana Lazar, Manager.

The structure of the Board of Directors of Fondului Roman de Garantare al Creditului Rural – IFN SA as of December 31, 2024 is the following:

- Mr. Alina Mihaela Toma, Chairman;
- Mr. Adrian Pinte, Member;
- Mrs. Camelia Luchian, Member;
- Mr. Ioan-Ciprian Chiorean, Member;
- Mr. Ionut Lianu, Member;
- Mr. Radu Popescu, Member.

14. Events subsequent to the balance sheet date

Events after the reporting period are those favorable and unfavorable events that occur between the end of the reporting period and the date on which the financial statements are authorized for issue. Two types of events may be identified:

- those that provide evidence of conditions that existed at the end of the reporting period (events leading to an adjustment to the financial statements after the reporting period);
- those that indicate the conditions that existed at the end of the reporting period (events that do not lead to an adjustment to the financial statements after the reporting period).

An event subsequent to the balance sheet date is the increase in the Bank's share capital by RON 1 billion, for which the Bank received approval from the European Commission in March 2025.

The European Commission considers that Romania's recapitalization of the Bank, which is fully state-owned, with approximately EUR 200 million (RON 1 billion), does not constitute state aid under EU state aid regulations. Following the approval of the European Commission, the Bank took the necessary steps to secure the amount, with the entire capital infusion being dedicated to increasing market share in the lending and deposit segments, improving efficiency, and ensuring robust capital levels.

15. Distribution of profit

According to the legal regulations (Government Ordinance no. 64/2001 as further amended and completed, Order no. 128/2005 of the Ministry of Public Finance and Law no. 31/1990 on trading companies), the Board of Directors proposes to distribute the profit achieved in 2024 as follows:

Item no.	Indicators	Bank
Amounts in RON		
1	Gross profit (before recording the provision for employee profit-sharing)	835 200 554
2	Corporate income tax (before recording the provision for employee profit-sharing and the tax reduction for IT assets acquired in 2024)	154 380 900)
3	Net profit before distribution (3= row 1 + row 2)	680 819 654
4	The value of IT assets acquired in 2024, for which the tax reduction on reinvested profits is granted, according to Article 22 paragraph 1 of the Fiscal Code.	110 797 438
5	Corporate income tax on IT assets acquired in year 2024 (5=row 4*16%)	17 727 590
6	Corporate income tax (before recording the provision for employee profit-sharing and after recording the tax reduction for IT assets acquired in 2024) 6= row 2+row 5	(136 653 310)
7	Net profit after recording the tax corresponding to IT assets acquired in year 2024 (7=row 1+row 6)	698 547 244
8	Legal reserve corresponding to gross profit realized in year 2024 (8= (row 1 – row 12) *5%), out of which:	39 955 736

In the context of macroeconomic developments with considerable uncertainties and risks to the outlook for economic activity and in order to adequately manage these risks, it was decided not to distribute dividends from the 2024 profit to the Shareholder and its capitalization in order to ensure an adequate level of own funds related to the bank's risk profile and the maintenance of a satisfactory level of banking prudential indicators.

According to the provisions of Order no. 27/2010 of the National Bank of Romania on the approval of accounting regulations conform to the International Financial Reporting Standards applicable to credit institutions, the Board of Directors proposes to the approval of the General Meeting of Shareholders:

- the financial statements corresponding to year 2024 (Appendix 1), prepared according to *Order no. 27/2010 of the National Bank of Romania on the approval of accounting regulations conform to the International Financial Reporting Standards applicable to credit institutions, as further amended and completed and to the International Financial Reporting Standards as adopted by the European Union ("IFRS")*;
- sustainability statement (annex 3);
- this Directors' Report for the financial year 2024.
- the distribution of profit of year 2024, according to the data presented in the table above.
- the discharge of the members of the Board of Directors who held this position in 2024.
- signature of the financial statements by Mr. Bogdan Constantin Neacșu, Chief Executive Officer – Chairman and Mr. Ștefan Silviu Fota – Manager of the Accounting Directorate.
- the publication of the financial results for the year ended on 31 December 2024, according to the legal requirements.

The mission of CEC Bank for the next period

"CEC Bank must be a universal, competitive commercial bank that offers customers diverse and high-quality products and services, focusing mainly on the financing of SMEs, agriculture, local public administrations, as well as those bankable projects that, by their nature, contributes to economic development, the creation and maintenance of jobs.

The bank will be an active element in supporting customers to access European Funds and will be involved in supporting Government Programs.

Special attention will be given to the relationship with the Romanian population."

The main indicators achieved 2024 year

The main indicators achieved in 2024 are:

1. Activity Efficiency Indicators – to monitor the achievement of the level of efficiency proposed in the forecast drawn up for the 2024 year (Financial forecast 2024).
2. Banking Prudence Indicators – to monitor the level of prudential indicators within the regulated limits, as well as reaching the level proposed by Financial forecast 2024.

Compared to the level included in Budget for 2024, the efficiency and prudential indicators were achieved in 2024 year in line with the estimated budget, as follows:

Efficiency indicators	Budget 2024	Achieved 2024	Banking prudence indicators	Budget 2024	Achieved 2024
ROA	0.70%	0.73%	Total equity ratio (Solvency)%	22.31%	26.65%
ROE	10.20%	13.06%	Liquidity coverage ratio (LCR)	204.3%	231.43%
The efficiency Rate of the basic activity	56.20%	49.56%	Non-performing loan ratio (NPL)	2.8%	4.75%
